From a noted science journalist comes a wonderfully witty and fascinating exploration of how and why we kiss. When did humans begin to kiss? Why is kissing integral to some cultures and alien to others? Do good kissers make the best lovers? And is that expensive lip-plumping gloss worth it? Sheril Kirshenbaum, a biologist and science journalist, tackles these questions and more in THE SCIENCE OF KISSING. It's everything you always wanted to know about kissing but either haven't asked, couldn't find out, or didn't realize you should understand. The book is informed by the latest studies and

Topics range from the kind of kissing men like to do (as distinct from women) to what animals can teach us about the kiss to whether or not the true art of kissing was lost sometime in the Dark Ages. Drawing upon classical history, evolutionary biology, psychology, popular culture, and more, Kirshenbaum's winning book will appeal to romantics and armchair scientists alike.

“Some people won’t believe any of this story. You might be one of them. But every single word is true. Tony DiMarco does catch a murderer, solve a mystery, and find a treasure—all in the first few days after he moves, unexpectedly, to 13 Hangmen’s Court in Boston. The fact that he also turns thirteen at the same time is not a coincidence.” So begins the story of Tony and his friends—five 13-year-old boys, all of whom are living in the same house in the same attic bedroom but at different times in history! None are ghosts, all are flesh and blood, and somehow all have come together in the attic room, visible only to one another. And all are somehow linked to a murder, a mystery, and a treasure. Praise for 13 Hangmen "Fascinating tale. Ghostly fun in old Boston."--Kirkus Reviews "The book’s design nicely differentiates Tony’s story, set in 2009, from the past narratives. Recommend this engaging historical mystery to readers who devoured Dan Gutman’s Baseball Card Adventures series and are ready for a longer, more complex adventure." --Booklist "Corriveau merrily ransacks historical episodes and figures (e.g., the Great Molasses Flood, the Underground Railroad, Boston mayor John F. “Honey Fitz” Fitzgerald) and spins, twists, and manipulates their stories to advance the DiMarco family mystery. The result is a novel that agilely balances humor and tension." --The Bulletin of the Center for Children's Books "This is an exceptionally good story, with a wry, humorous tone that has particular boy appeal. It covers baseball, history, sibling rivalry, girls, and mystery, and folds in the space-time continuum." --School Library Journal

Sixteen-year-old Mia travels to Paris to attend an elite ballerina program, and along the way meets a cute French boy, finds an unexpected rival, and discovers the truth behind a family legend.
