A radically altered Blade came with a new 929cc motor and a pivotless frame that saw the swingarm mounted directly to the back of the engine, as well as fuel-injection replacing the carbs of previous generations. • As well as inverted forks, the 2000 Blade featured a 17in front wheel for the first time.

What we can say with certainty, however, is that the new Honda CBR929RR is a well-designed and manufactured motorcycle, one that seems to meet all Honda's design goals. It'll be a close match, for sure; but there's no doubt that the new CBR929 will be in the hunt for top honors up to the very end.
