In today's business world, there is an enormous gap between how leaders are supposed to act versus how they actually act. As a leader, where do you fall on the spectrum?In his debut book, John Slone teaches readers about discovering one's Hidden You and using it to become the best leader possible. Before you can successfully lead others, you must rst discover both the physiological and psychological attributes that make you, you. Every leader needs a systematic approach to successfully lead while taking into consideration the complexities of human behavior and the innate survival instincts that are consciously and subconsciously invoked in every human interaction. Only by understanding this can you begin your leadership evolution and embark on a journey toward leadership transcendence.

This lucid and informative book analyzes the problems of clusters in transition through studies of agglomerations at different stages of development in various East Asian countries. The contributors reconsider industrial cluster policy within a more dynamic and long-term framework, and explore how regional transformations can bring new insights to the theory of agglomeration and innovation. By identifying the factors and policies to promote upgrading, the authors establish the theoretical and policy basis for transforming industrial clusters from production-oriented to innovation-oriented agglomerations. They also study the important structural changes in the region, such as FTAs and the role of the WTO, and the consequent effects on clusters. Researchers and students of Asian economics, industrial clusters and innovation will find this incisive book invaluable. It will also prove to be a compelling read for policymakers in developing countries or international development organizations.

This offers honest and largely unedited glimpses into the world of social work of 40 years or so ago. Illustrated by the professional practice of one Colin Millwood, an enthusiastic but otherwise green social worker, it coincides with the early beginnings of his arrival at his local Social Services Department.
