2002 Sea-Doo GTX 4-TEC The Sea Doo GTX 4-TEC is the combination of a cutting-edge, 1500 four-stroke 4-TEC Rotax marine-designed engine, and hydrodynamic revelation. This is the most powerful, mass-production engine ever used in a Sea Doo watercraft, yet it is still compact, lightweight, and can get across the water with enough displacement and power to leave other watercraft in its wake.

beyond description. The ancient Silk Road tied together space, much as pipelines, railroads, telecommunications infrastructure, and similar cultural and constructed links ease the mobility of people and products in modern Eurasia. This book considers Eurasia along an interlinked corridor, with chapters illustrating the connections as a discussion foundation focusing on the shared interactions of a set of nation states through time and across space, generating more positive considerations of the resurgently important region of Eurasia. China's interests fall into three chapters: the southeastern border with Vietnam, the southwestern Himalayan edge, and the western Muslim regions. Russia's recovery relates events to a larger landmass context and focuses on the importance of historic mobility. A geo-history of the Caspian considers this

The concluding chapter pulls together strands linking subregions for a new concept of "Eurasia" as an area linked by vital interests and overlapping histories.

Maybe you've had a moment when God did something radical in your heart. Putting your faith and trust in Him certainly feels like taking a giant leap, but really it's just the beginning of the exciting, and "yes" radical journey that comes with agreeing to live as God calls you to. What does being radical look like? In the Bible, the common characteristics of "radicals" are: They trusted God. They listened to God's voice and then obeyed—even when it cost them. Because of their faith, they lived lives that looked

different from everyone else's. That's a short list and a tall order, but basically it means you can be a radical, too. There's nothing on that list that is impossible for you. There's nothing on that list that requires you to be older, or more financially stable, or to have a college degree. No matter who you are or where you live, you can live a radical faith. Meet Erin, who has learned practical ways to do just that. She'll help you be radical, too. My Name is Erin: One Girl's Plan for Radical Faith is one in a series of four books, which can be read in any order. The other titles are: My Name is Erin: One Girl's Journey to Discover Truth My name is Erin: One Girl's Journey to Discover Who She Is My Name is Erin: One Girl's Mission to Make a Difference

Why do we forget about people when we talk about innovation? Innovation has

been a popular subject for the last years. Bruce Nussbaum, perhaps exaggerating, said "Innovation died in 2008, killed off by overuse, misuse, narrowness, incrementalism and failure to evolve. It was done by CEOs, consultants, marketeers, advertisers and business journalists who degraded and devalued the idea by conflating it with change, technology, design, globalization, trendiness, and anything new. It was done by an obsession with measurement, metrics and maths and a demand for predictability in an unpredictable world." If so, why another book on innovation? Because it is not one more book on the subject! It is a book that does not talk about innovation, but about people. Is there anything as important as people when innovating? This book describes how to create a true culture of innovation, a culture where innovation is not an
