The world food system is put under the microscope in this updated edition of "The No-Nonsense Guide to World Food."

Demystifies all the colors of the sexual rainbow, tracking the campaigns for rights and equality worldwide.

How much has life really changed for women during the last decade? Has the womens movement affected women all over the world? Has it changed womens relationships with men? Nikki van der Gaag answers these questions with hard, sometimes disturbing, evidence. Many women have made huge leaps forward in legal rights, political representation, employment, education, health but beneath the surface the statistics are shocking. Vivid testimonies from women and men around the world explain why, especially in this post-feminist age, womens rights are still very much an issue for men and women alike. "She has made a special effort to correct many of the misconceptions and biases related to the feminist movement, to link the liberation of women who constitute half of society to the liberation of men and to the dispossessed majority living on earth." from the introduction by Nawal El Saadawi

Globalisation has become one of the most used and encompassing words over the past decade, of undeniable influence in economics, politics and activism. Globalisation is literally all around; every aspect of life is affected by a global structure of communication and economy. This fully revised and updated guide condenses this complex subject into clear, concise commentary. It examines the debt trap, the acceleration of neoliberalism, competition for energy resources, the links between the war on terror, the arms trade and the alternatives to corporate control.

The prevailing model of endless economic growth is unsustainable. This book unpicks the idea of degrowth and explores alternative visions.

Filled with specific details and examples, this book describes the organization of a successful yearlong writing workshop for grades 3 to 8.

Green issues and politics are no longer separate entities, and as environmental issues will only become more pertinent in the future, it will dominate the political spectrum. From climate chaos to consumerism, the crisis facing human civilisation is clear. Yet the response from politicians at present is still inadequate and environmental activists focus on single campaigns rather than electoral politics. The new addition to the No-Nonsense Guides measures the rising tide of eco-activism and awareness and explains why it heralds a new political era worldwide.

Building dams in India, planting trees in Burkina Faso, rescuing street children in Brazil - these are images of aid and international development with which we can all identify. However, what passes for development all too often improves life for the better off while actively hurting the very people the venture was meant to support. Maggie Black exposes the hypocrisy and reveals a more accurate picture of what is happening in development's name, arguing for a process to be put in place that truly defends the interests of poor people.

Yan Valle is a vitiligo survivor who investigates the hidden truth about his devastating skin condition. After a harrowing breakup, he finds refuge in the technological underground. He never expected himself to become CEO of Vitiligo Research Foundation and to make a choice that will change one hundred million human lives. On this upstream journey to the mysterious source of white spots, Yan relentlessly looks for clues in the body and environment. He will bring together shamans, scientists, celebrities and top executives to share valuable secrets and solve the puzzle. Dashing from the root cause to a future lifestyle, the author reveals what you really need to know. Yan will guide you through symptoms, possible triggers and common products that you must avoid. He will help you decipher medical jargon and correct common doctor's mistakes. Together, you will explore treatments, natural medicines, food supplements, cosmetic camouflage so you can choose the proper therapy for yourself or your child. PRAISE FOR THE BOOK "This ambitious book is about how to help ordinary patients understand and manage their skin condition. Everyone interested in vitiligo should absolutely read it." - Prof. Torello Lotti "A smart, accessible book that takes a look at the whole body and its environment to understand the disease, treatment tools and protocols, and well worth the price." - Prof. Robert Schwartz "The author integrates in a flawless form social, medical and psychological burden of living with vitiligo. It is truly the most complete and essential guide to living with vitiligo." - Prof. Andy Goren "This book is rare. It looks at vitiligo with an insider's knowledge, wisdom and deep caring about patients." - Ogo Maduwesi, VITSAP "This is the defining work on this disease. The best I've read." - Health Editor, CNN "Yan Valle is the person to listen about vitiligo." - Lee Thomas, Fox2 TV "I love how easy to understand and comprehensive it is - something definitely lacking in the vitiligo community today." - Erika Page, Living Dappled
