Conversely, algorithms and data structures are at the very heart of software. They are enduring concepts that have been in use since the forties. Such knowledge makes every related subject, including frameworks, more accessible. Any individual adept in enduring concepts will outperform an individual adept in fads.

It is still primarily a 3rd year course. We assume the students know and are confident with Algorithms/Data Structures to Inf 2B level, and are strong in Maths. Students should have good grades in DMMR and Probability or an alternative year 2 Maths programme, and should be comfortable with doing proofs.
