Ultimately we see how competing preoccupations over gender, class, race, and American identity were played out in the making of a wide range of popular and institutional photographs. Smith demonstrates that as the body was variously mapped and defined as the key to essentialized identities, the image of the white middle-class woman was often held up as the most complete American ideal.

The topics of gender, race and ethnicity, and inequality are important economic and social issues. In this paper, we analyze how often those topics are addressed in two outlets of the American Economic Association: peer-reviewed papers in the American Economic Review and the conference papers from the AEA 's annual meeting that are published in its Papers and Proceedings .

and gender because within American culture stereotypes are made most often on the basis of race and gender (ABC 20/20, 2006). Thus, it appears that the stereotypes that are present within American society translate directly into the advertising spectrum. A prime example of this is in The Perpetuation of Subtle Prejudice, a study of 1990s television advertising that focused on race and gender to determine the ways in which
