International Politics States engage with one another in an environment known as the international system. All states are considered to be sovereign, and some states are more powerful than others. The system has a number of informal rules about how things should be done, but these rules are not binding.

**History of the International System - SparkNotes**

International human rights law (IHRL) is the body of international law designed to promote human rights on social, regional, and domestic levels. As a form of international law, international human rights law are primarily made up of treaties, agreements between sovereign states intended to have binding legal effect between the parties that have agreed to them; and customary international law.

**International human rights law - Wikipedia**

International HRM is the process of acquiring, allocating, and utilizing human resources in a global business to achieve the stated objectives. Because of global context, international HRM is the interplay of three dimensions- HR activities, type of employees, and countries of operations.

Overview. International justice means ensuring accountability for some of the most serious crimes: genocide, crimes against humanity, war crimes, torture and enforced disappearances. There are many reasons why victims of these crimes are denied justice. They include a lack of political will to investigate crimes and prosecute those responsible, weak criminal justice systems, and the marginalization of victims in society.
