Poul Anderson writes great stuff, but  
if you're a fan of space opera page-  
turners this isn't for you. It develops  
slowly and follows its characters in  
logical fashion. Without providing  
any spoilers, the conceptual  
framework for the development of  
Earth society at ending of the book  
shows remarkable foresight  
(Anderson died in 2001, before cell  
phones became ubiquitous).
