The Developing Child Study

Center on the Developing Child at Harvard University

Studying Child Development is Critical in Child Health and Well-being During the first 5 years of a child ' s life, there is almost unimaginable physical, social, cognitive and emotional change and growth which takes place.

Why Study Child Development? - Online Learning

Summary points Developmental assessment is the process of mapping a child ' s performance compared with children of similar age. The comparison group is obtained from a representative sample of the population that the child comes from. Several factors contribute to performance varying greatly between different population groups.¹ In a multicultural society it can be challenging to find ...

The Developing Child

This study provides evidence that an urban Birthing on Country Service has reduced preterm birth for Indigenous families. Established through local Indigenous community investment-ownership-activation and in partnership with a mainstream health service, key components of the Service include: a partnership Steering Committee, Indigenous governance, a co-designed service, local leadership ...
