Medical Conditions - Building Blocks for Learning ...

As a pediatric occupational therapist, I've used wooden building blocks in occupational therapy many times. For my own children, I've used regular wooden blocks as a fine motor tool too! In fact, building with blocks is a fine motor skills that kids need in order to fine motor development many, many, (MANY) times. Wooden blocks are a tool that are used for development of goal progression in treatment activities and in assessment of fine motor developmental level.
