Like many other incipient technologies, Web services are still surrounded by a substantial level of noise. This noise results from the always dangerous combination of wishful thinking on the part of research and industry and of a lack of clear understanding of how Web services came to be. On the one hand, multiple contradictory interpretations are created by the many attempts to realign ...

~~Web Services - Gustavo Alonso - 9783154044066 - Blackwell's~~

Based on their academic and industrial experience in middleware and enterprise application integration, Alonso and his co-authors clarify the fundamental concepts behind Web services and present them as the natural evolution of conventional middleware necessary to meet the challenges of the Web and of B2B application integration.
