The rise in computing and multimedia technology has spawned an increasing interest in the role of diagrams and sketches, not only for the purpose of conveying information but also for creative thinking and problem-solving. This book attempts to characterise the nature of "a science of diagrams" in a wide-ranging, multidisciplinary study that contains accounts of the most recent research results in computer science and psychology. Key topics include: cognitive aspects, formal aspects, and applications. It is a well-

Jean Illsley Clarke and Connie Dawson provide the information every adult caring for children should know -- about ages and stages of development, ways to nurture our children and ourselves, and tools for personal and family growth. This new edition also addresses the special demands of parenting adopted children and the problem of overindulgence; a recognition and exploration of prenatal life and our final days as unique

The spellbinding conclusion to the brilliant fantasy series by the author of *The Mirador* and *Mélusine*. Glissant has written extensively in French about the colonial experience in the Caribbean. Britton (French, Aberdeen U., Scotland) situates Glissant within ongoing debates in postcolonial theory, making connections between his novels and theoretical work and the work of Frantz Fanon, Gayatri Spivak, Homi Bhabha, and Henry Louis Gates, Jr. Focusing on language and subjectivity, discussion moves between analysis of Glissant's theoretical work and detailed readings of his novels. Major themes central to his writing, such as the reappropriation of history, standard and

“An original American story of a tough, embattled media player with uncanny gifts for giving the public what they want.”

—Publishers Weekly In *The Godfather of Tabloid*, Jack Vitek explores the life and remarkable career of Generoso Pope Jr. and the founding of the most famous tabloid of all—the *National Enquirer*. Upon graduating from MIT, Pope worked briefly for the CIA

until he purchased the New York Enquirer with dubious financial help from mob boss Frank Costello. Working tirelessly and cultivating a mix of American journalists (some of whom, surprisingly, were Pulitzer Prize winners) and buccaneering Brits from Fleet Street who would do anything to get a story, Pope changed the name, format, and content of the modest weekly newspaper until it resembled nothing America had ever seen before. Pope was a man of contradictions: he would fire someone for merely disagreeing with him in a meeting (once firing an editor in the middle of his birthday party), and yet he spent

upwards of a million dollars a year to bring the world's tallest Christmas tree to the Enquirer offices in Lantana, Florida, for the enjoyment of the local citizens. Driven, tyrannical, and ruthless in his pursuit of creating an empire, Pope changed the look and content of supermarket tabloid media, and the industry still bears his stamp. Grounded in interviews with many of Pope's supporters, detractors, and associates, *The Godfather of Tabloid* is the first comprehensive biography of the man who created a genre and changed the world of publishing forever.
