Mingle in some math to everyday teaching! Fast Ideas for Busy Teachers: Math has hundreds of ideas that will fit into a hectic schedule and enliven third-grade students' exploration of mathematics. The book is organized by math skills, which makes it easy to find a topic when it's needed. Open-ended lessons allow adaptation of activities to meet students' needs. The lessons are perfect for substitutes, rainy-day activities, homework, and in-class assignments. The book includes tips for managing a classroom, getting organized, getting to know students, and implementing behavior management. This 80-page book also includes reproducibles and aligns with Common Core State Standards, as well as state and national standards.

Give students the learning power to move to the head of the class! This book features ten packets of reproducible activities that support state and NCTM standards, and cover the six essential strands of mathematics. Simply complete each packet's customizable cover sheet, reproduce the activity pages, and send them home with your students. The packets focus on numbers and counting, measurement, time and money, patterns and relations, algebra, shapes, data analysis and probability, and problem solving. It also includes a math vocabulary list, scoring rubric, calendar template, and tools to help build the home-school connection. Answer keys are also provided.

Four starred reviews greeted this new, groundbreaking classic from Deborah Wiles!Franny Chapman just wants some peace. But that's hard to get when her best friend is feuding with her, her sister has disappeared, and her uncle is fighting an old war in his head. Her saintly younger brother is no help, and the cute boy across the street only complicates things. Worst of all, everyone is walking around just waiting for a bomb to fall.It's 1962, and it seems that the whole country is living in fear. When President Kennedy goes on television to say that Russia is sending nuclear missiles to Cuba, it only gets worse. Franny doesn't know how to deal with what's going on in the world--no more than she knows with how to deal with what's going on with her family and friends. But somehow she's got to make it.

Math in a Minute for grade 3 includes essential math skills such as multiplying and dividing within 100, solving problems using addition, subtraction, multiplication, and division, and understanding the place value system. This 96-page workbook also includes writing and comparing fractions, representing and interpreting data and much more! --Math in a Minute has fun math activities with pages separated by skill, theme, and completion time. Activities range in complexity from 1 minute to 10 minutes depending on the grade level. This allows children to gradually build their way up to more and more intense work. The repetition gives children an opportunity to reinforce basic skills and concepts. Beat the clock for fast-paced math practice!

McGraw-Hill My Math develops conceptual understanding, computational proficiency, and mathematical literacy. Students will learn, practice, and apply mathematics toward becoming college and career ready.
