## Bookmark File PDF Cpr Answers To Written Test

A typical CPR test has two parts. The first is a written test in which people are asked a series of questions about the basics of CPR. This section of the test is designed to ensure that people are familiar with CPR protocol, when to perform CPR, how to perform CPR, and how to deal with situations like infants who are not breathing. The written test is usually multiple choice, allowing test takers to choose from several possible answers for each question.
