# Online Library

## Do Smart

When using intelligent systems exist best practice building systems requiring a degree of adaptation and intelligence. It is therefore not intended as a collection of the most recent research results, but as a practical guide for experts

# Online Library

## Do Smart

from other areas and industrial users interested in building solutions to their problems using intelligent techniques. One of the main issues covered is an attempt to answer the question of how to select and/or combine suitable intelligent

# Online Library

## Do Smart

techniques from a large pool of potential solutions.

Another attractive feature of the book is that it brings together experts from neural

network, fuzzy, machine learning, evolutionary and hybrid systems

communities who will provide their

# Online Library

## Do Smart

views on how these different intelligent technologies have contributed and will contribute to creation of smart adaptive systems of the future.

The Third  
Methods Author  
International  
Workshop on  
Hybrid Artificial  
Intelligence

# Online Library

## Do Smart

Systems (HAIS 2008) presented the most recent developments in the dynamically expanding realm of symbolic and sub-symbolic techniques aimed at the construction of highly robust and reliable problem-solving techniques. Hybrid

# Online Library

## Do Smart

Intelligent systems have become increasingly popular given their

capabilities to

handle a broad

spectrum of real-

world complex

problems which

come with inherent

imprecision,

uncertainty and

vagueness, high-

dimensionality, and

# Online Library

## Do Smart

non stationarity.

These systems provide us with the opportunity to

exploit existing

domain knowledge

as well as raw data

to come up with

prom- ing solutions

in an effective

manner. Being

truly

multidisciplinary,

the series of HAIS

# Online Library

## Do Smart

workshops offers a unique research forum to present and discuss the latest theoretical advances and real-world applications in this exciting research field. This volume of Lecture Notes on Artificial Intelligence (LNAI) includes accepted papers presented

# Online Library Do Smart

at HAIS 2008 held  
in University of  
Burgos, Burgos,  
Spain, Sept-ber  
2008 The global  
purpose of HAIS  
conferences has  
been to form a  
broad and interdis-  
iplinary forum for  
hybrid artificial  
intelligence  
systems and  
associated learning

# Online Library

## Do Smart

paradigms, which are playing increasingly important roles in a large number of application areas.

Since its first edition in Brazil in 2006, HAIS has

become an important forum for researchers

working on fundamental and

# Online Library

## Do Smart

theoretical aspects  
of hybrid artificial  
intel- gence  
systems based on  
the use of agents  
and multiagent  
systems,  
bioinformatics and  
bio-inspired  
models, fuzzy  
systems, artificial  
vision, artificial  
neural networks,  
opti- zation models

Online Library

Do Smart

and alike.

Systems Exist

This volume is a  
brief, yet

comprehensive

account of new

development,

tools, techniques

and solutions in the

broadly perceived

“intelligent

systems”. New

concepts and ideas

concern the

# Online Library

## Do Smart

development of effective and efficient models which would make it possible to effectively and efficiently describe and solve processes in various areas of science and technology. Special emphasis is on the dealing with

# Online Library

## Do Smart

uncertainty and imprecision that permeates virtually all real world

processes and phenomena, and has to properly be modeled by formal and algorithmic tools and

techniques so that they be adequate and useful. The papers in this

# Online Library

## Do Smart

Volume concern a wide array of possible techniques exemplified by, on the one hand, logic, probabilistic, fuzzy, intuitionistic fuzzy, neuro-fuzzy, etc. approaches.

On the other hand, they represent the use of such systems modeling tools as

# Online Library

## Do Smart

generalized nets,  
optimization and  
control models,  
systems analytic  
models, etc. They  
concerns a variety  
of approaches,  
from pattern  
recognition, image  
analysis, education  
system modeling,  
biological and  
medical systems  
modeling, etc.

Online Library

Do Smart

Adaptive

Intelligent/smart  
systems exist  
systems have

become common

practice in many  
engineering

applications. On  
the other hand,

current low cost  
standard CMOS

technology (and  
future foreseeable

developments)

makes available

# Online Library

## Do Smart

enormous potentialities. The next breakthrough will be the design and development of "smart adaptive systems on silicon" i.e. very power and highly size efficient complete systems (i.e. sensing, computing and "actuating" actions) with

# Online Library

## Do Smart

intelligence on board on a single silicon die. Smart adaptive systems on silicon will be able to "adapt" autonomously to the changing environment and will be able to implement "intelligent" behaviour and both perceptual and

# Online Library

## Do Smart

cognitive tasks. At last, they will communicate through wireless channels, they will be battery supplied or remote powered (via inductive coupling) and they will be ubiquitous in our every day life. Although many books deal with research and

# Online Library

## Do Smart

engineering topics  
(i.e. algorithms,  
technology,  
implementations,  
etc.) few of them  
try to bridge the  
gap between them  
and to address the  
issues related to  
feasibility,  
reliability and  
applications. Smart  
Adaptive Systems  
on Silicon, though

# Online Library

## Do Smart

not exhaustive,  
tries to fill this gap  
and to give  
answers mainly to  
the feasibility and  
reliability issues.

Smart Adaptive  
Systems on Silicon  
mainly focuses on  
the analog and  
mixed mode  
implementation on  
silicon because this  
approach is

# Online Library

## Do Smart

amenable of  
achieving  
impressive energy  
and size efficiency.

Moreover, analog  
systems can be  
more easily  
interfaced with  
sensing and  
actuating devices.

The two LNAI  
volumes 6678 and  
6679 constitute the

Online Library

Do Smart

proceedings of the  
6th International  
Conference on  
Hybrid Artificial  
Intelligent  
Systems, HAIS  
2011, held in  
Wroclaw, Poland, in  
May 2011. The 114  
papers published in  
these proceedings  
were carefully  
reviewed and  
selected from 241

# Online Library

## Do Smart

submissions. They are organized in topical sessions on hybrid intelligence systems on logistics and intelligent optimization; metaheuristics for combinatorial optimization and modelling complex systems; hybrid systems for

# Online Library

## Do Smart

context-based  
information fusion;  
methods of  
classifier fusion;  
intelligent systems  
for data mining and  
applications;  
systems, man, and  
cybernetics; hybrid  
artificial  
intelligence  
systems in  
management of  
production

Online Library

Do Smart

systems; hybrid  
artificial intelligent  
systems for  
medical  
applications; and  
hybrid intelligent  
approaches in  
cooperative multi-  
robot systems.

Methods Author

Bogdan Gabrys

Man-Machine  
Interaction is an

# Online Library

## Do Smart

interdisciplinary field of research that covers many aspects of science focused on a human and machine in conjunction. Basic goal of the study is to improve and invent new ways of communication between users and computers, and

Online Library

Do Smart

many different subjects are involved to reach the long-term research objective of an intuitive, natural and multimodal way of interaction with machines. The rapid evolution of the methods by which humans interact with

# Online Library

## Do Smart

computers is observed nowadays and new approaches allow using computing technologies to support people on the daily basis, making computers more usable and receptive to the user's needs. This monograph is the third edition in the

# Online Library

## Do Smart

series and presents important ideas, current trends and innovations in the man-machine interactions area.

The aim of this book is to

introduce not only hardware and software interfacing

concepts, but also to give insights into

# Online Library

## Do Smart

the related  
theoretical  
background.

Reader is provided  
with a compilation  
of high-quality  
original papers  
covering a wide  
scope of research  
topics divided into  
eleven sections,  
namely: human-  
computer  
interactions, robot

# Online Library

## Do Smart

control, embedded  
and navigation  
systems, bio data  
analysis and  
mining, biomedical  
signal processing,  
image and sound  
processing,  
decision support  
and expert  
systems, rough and  
fuzzy systems,  
pattern  
recognition,

Online Library

Do Smart

Algorithms and  
optimization,  
computer networks  
and mobile  
technologies and  
data management  
systems.

Combination Of

This two volume  
set of books  
constitutes the  
proceedings of the  
2014 7th IEEE  
International

Online Library

Do Smart

Conference  
Intelligent Systems  
(IS), or IEEE

IS'2014 for short,  
held on September  
24-26, 2014 in  
Warsaw, Poland.

Moreover, it  
contains some  
selected papers  
from the collocated  
IWIFSGN'2014 -

Thirteenth  
International

Online Library

Do Smart

Workshop on  
Intuitionistic Fuzzy  
Sets and  
Generalized Nets.

The conference  
was organized by  
the Systems  
Research Institute,  
Polish Academy of  
Sciences,

Department IV of  
Engineering

Sciences, Polish  
Academy of

# Online Library

## Do Smart

Sciences, and  
Industrial Institute  
of Automation and  
Measurements -

PIAP. The papers  
included in the two  
proceedings  
volumes have been  
subject to a  
thorough review  
process by three  
highly qualified  
peer reviewers. Co  
mments and

# Online Library

## Do Smart

suggestions from them have considerable helped improve the quality of the papers but also the division of the volumes into parts, and assignment of the papers to the best suited parts.

This volume offers a general view of

Online Library

Do Smart

recent conceptual developments of Soft Computing (SC). It presents successful new applications of SC to real-world problems leading to better performance than "traditional" methods. The edited volume covers a wide

Online Library

Do Smart

spectrum of applications including areas such as: robotic dynamic systems, non-linear plants, manufacturing systems, and time series prediction.

Methods Author

This volume presents new directions and solutions in broadly

Online Library

Do Smart

perceived  
intelligent systems.  
An urgent need this  
volume has  
occurred as a  
result of vivid  
discussions and  
presentations at  
the "IEEE-IS' 2006 -  
The 2006 Third  
International IEEE  
Conference on  
Intelligent  
Systems" held in

Online Library

Do Smart

London, UK,

September, 2006.

This book is a

compilation of

many valuable

inspiring works

written by both the

conference

participants and

some other experts

in this new and

challenging field.
