...

The only big difference I see between 3500 and 5500 is the payload and axle. Payload in 5500 is twice as much compared to 3500 and axle is 4.88 compared to 4.10. But maximum towing capacity is the same on both trucks, 3500 has more horse powers with the same engine (cant figure out why is that) and 5500 will of course be less fuel efficient.
