The manual for the basic 505 is on there too, I just had to dig a bit deeper: [www.samson-tech.com/producs/505.pdf](http://www.samson-tech.com/producs/505.pdf) It appears the noise gate and patch level are standard offerings on both models. IMO anything that comes standard with an onboard noise

The Zoom 505 is a good unit to buy if youre looking for versatility. If you want to concentrate on just one effect, like disortion or blues, I'd reccommend a simple single foot pedal, but
