MSc Finance and Economics

Finance and capital play a major role in every economy or business. Investment is often the key to the success of a construction business, and government policies and spending can have very real effects in terms of producing steady growth and minimising the impact of recessions.

Unit 11: Economics and Finance in Construction and Civil ...

If you want to succeed in finance, you need to know economics well. Economics is more about finding the equilibrium point of demand & supply, understanding average cost and marginal cost, finding differences between fixed cost & variable cost and many such theoretical concepts; finance, on the other hand, is the right extension of these concepts. Thus, it's often been seen that people who have made their mark in finance have often had an economics background.

Finance vs Economics - Which Profession is Better?
