Whether you want to buy a television or a car, provide a service, file a consumer complaint or return an item to a seller, you need to know your rights under the new Consumer Protection Act ... The CP Act has given every South African rights and obligations that up until now have not been an issue, and ignorance of the law is not a defence. This easily accessible guide explains how, among other things, the CP Act aims to: - Promote and protect the economic interests of consumers; - Improve access to, and the quality of, information that is necessary so that consumers are able to make informed choices; - Protect consumers from hazards to their well-being and safety; - Develop effective means of redress for consumers; and - Promote and provide for consumer education. Everyone's Guide to the Consumer Protection Act is therefore essential reading for all South Africans – every home should have one.

The law affects us all, and even your most basic day-to-day choices and actions have legal implications. Yet few people have much knowledge of the law or understand complicated legal terminology – and lawyers' fees are beyond many people's reach. This book will provide you with the necessary information on a wide range of legal issues that may impact on your daily life – at work, in the home, on the road, in the marketplace, and in the courtroom. Written by experts specifically for the layperson, the book's everyday language is free of obscure legal jargon. It is easily understandable, informative and essential for each and every household in South Africa. What's new in the 4th edition? This new edition includes new or expanded information on procedures for DNA and other forensic samples; protection from harassment; parental duties and responsibilities; travelling with children; rights to education; fair and unfair dismissals; franchises; developments in property law; electronic fund transfers; the Road Accident Fund; and the law applying to sport.

More than 70% of customers consult online reviews and take them very seriously. A disgruntled customer on Yelp might have more clout than a guidebook, magazine, or newspaper. This review-driven marketplace terrifies many businesses. But some have learnt to navigate and profit from customer reviews. Bill Tancer takes readers on a fascinating journey inside that world, to find out why one Los Angeles barber advertised his one-star reviews and how one scrappy hotel became the highest rated in London. Tancer's fascinating stories and data-driven research reveal how sites like Yelp and TripAdvisor are changing the way we interact and show how business owners can leverage online reviews to find greater success.

Recession, inflation, interest rates, income tax, exchange rates ... We are bombarded with these terms every day - by newspapers, the radio, TV and the internet - but what do they actually mean? And how do they impact on you? In this updated edition of Everyone's Guide to the South African Economy, all these issues - and more - are addressed. The book clearly explains and evaluates a wide range of economic occurrences - from the budget and the rand/dollar exchange rate to the balance of payments and the role of the South African Reserve Bank. The book investigates the causes and consequences of the 2008/2009 global financial and economic crisis, looks at the sub-Saharan African economy, and explores human development issues in South Africa and their implications for policy-making. If you are baffled by the specialised jargon of economists and bankers and want to know more about the economic forces that subtly dictate your day-to-day existence, Everyone's Guide to the South African Economy will put you in the picture. This is essential reading for every South African consumer and taxpayer. Economics, after all, is too important to be left to economists.

This book was written both for survivors and health professionals, some of whom are cancer survivors, too. Our goal is to provide you with a survivor's road map. --Dr. Ernest H. Rosenbaum * More than 30 medical professionals reveal insights on surviving cancer to empower cancer survivors and their caregivers, as well as the doctors who manage their continued care. The CDC's National Action Plan for Cancer Survivorship estimates that there are 9.6 million persons living following a cancer diagnosis. And this number is strictly related to patients. It does not include family members, friends, or caregivers. For anyone approaching life from the perspective of remission, respected oncologist Dr. Ernest Rosenbaum leads a team of 34 oncology specialists and medical contributors--some of whom are both doctors and survivors themselves--in creating a guide specifically geared for cancer survivorship. The growing number of people approaching life post-cancer will find solace, understanding, and opportunity with information specifically geared to managing the lingering effects of cancer treatment, such as: * Lifestyle changes to improve health and longevity * What survivors need to know following anticancer therapy * How to manage the side effects of chemotherapy and radiation therapy * How to set goals for the future
