With the collapse of Enron and other similar scandals, financial reporting and its relation to corporate governance has become a contentious issue. In this revealing book, author Paul Rosenfield involves the reader in exploring contemporary financial reporting and skilfully highlights the deficiencies in current methods. In doing so it provides a user-oriented guide to the salient issues which affect all aspects of financial accounting. Contemporary Issues in Financial Reporting challenges the reader to critically think through the issues and arguments involved in the practice of financial reporting. It goes to the heart of the most difficult and controversial problems, investigating the major issues and commenting upon the solutions offered in financial reporting literature. The grave defects in current accepted accounting principles are demonstrated and exposed, and alternative solutions are offered. Written by a former Secretary General of the International Accounting Standards Committee, practitioners and accounting scholars alike will find this volume to be an essential addition to their libraries.

Wahlen/Baginski/Bradshaw is a balanced, flexible, and complete Financial Statement Analysis book that is written with the premise that students learn financial statement analysis most effectively by performing the analysis on actual companies. Students learn to integrate the concepts from economics, finance, business strategy, accounting, and other business disciplines through the integration of a unique six-step process. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
