"Chapter Two" is a delightful two-act play. I marvel at the simplicity of the play's concept, the humor, and the use of incremental perturbations - all of which combine to make the play work. As a novelist, I find reading plays helpful in understanding the importance of writing dialogue that sounds natural.

Recent widower, writer George Schneider, is encouraged by his younger brother Leo to start dating again.

It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. There are adventures in the graveyard for a boy—an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Sleer. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.

Marine dissolved organic matter (DOM) is a complex mixture of molecules found throughout the world's oceans. It plays a key role in the export, distribution, and sequestration of carbon in the oceanic water column, posited to be a source of atmospheric climate regulation. Biogeochemistry of Marine Dissolved Organic Matter, Second Edition, focuses on the chemical constituents of DOM and its biogeochemical, biological, and ecological significance in the global ocean, and provides a single, unique source for the references, information, and informed judgments of the community of marine biogeochemists. Presented by some of the world's leading scientists, this revised edition reports on the major advances in this area and includes new chapters covering the role of DOM in ancient ocean carbon cycles, the long term stability of marine DOM, the biophysical dynamics of DOM, fluvial DOM qualities and fate, and the Mediterranean Sea. Biogeochemistry of Marine Dissolved Organic Matter, Second Edition, is an extremely useful resource that helps people interested in the largest pool of active carbon on the planet (DOC) get a firm grounding on the general paradigms and many of the relevant references on this topic. Features up-to-date knowledge of DOM, including five new chapters The only published work to synthesize recent research on dissolved organic carbon in the Mediterranean Sea Includes chapters that address inputs from freshwater terrestrial DOM

Bestselling Author Reveals the Key to Fixing Broken Relationships Conflict is a part of life, but that doesn't mean we need to accept bitterness and broken relationships. But before we can properly heal our relationships with others, we must let God heal our relationship with himself. In this book, Neil Anderson invites you to see how Jesus brings about the miracle of reconciliation. Learn how to go beyond conflict management to freedom and healing by learning the basics of repentance, reparation, and forgiveness. Through true stories of people who have found reconciliation with God and with each other, you'll understand how to identify relationship problems, find effective solutions, and guide yourself and others through the process of forgiveness and healing.

The 2/1 Game Force bidding system is an improvement over the Standard American System that has been in effect and played by bridge players for many years. The advantage of the 2/1 system is that it allows the partnership to know that game is possible with only a single bid. In this book, I have tried to present the fundamental aspects of the bidding structure for playing a "pure" Two-Over-One Game Force system of bidding. In this book, I have tried to change behavior by presenting a series of bids geared toward the 2/1 bidding structure that includes Bergen, Reverse Bergen, and Combined Bergen Raises, inverted minor suit raises with crisscross and flip-flop, cuebidding, modified scroll bids, and many more methods not used in Standard American or Precision. In the fourth edition, the Minorwood Convention has been expanded and several variations of the Flannery Convention are included in this edition. I have added the Hello and SCUM conventions used to interfere over strong notrumps and a Modified Landy convention designed to compete over partnerships that employ a weak notrump bid. The Equal Level Conversion (ELC) double is discussed in Chapter 6 and additional material on slam bidding has been added to Chapter 3. The material on two-way new minor forcing and the Gazilli Convention has been expanded upon in Chapter 1 and Jacoby transfers with a superaccept structure has been added to Chapter 2. Finally, a new chapter that reviews the new Italian System of bids called Fantunes has been included in this edition. The System has been modified to be in compliance with the General Convention Chart.
