Book: Great Feuds in Medicine: Ten of the Liveliest ...
Of the more modern feuds, Jonas Salk versus Albert Sabin is a classic, the great argument being whether the most efficacious vaccine for poliomyelitis contained a killed or a debilitated virus. Both men's work saved countless thousands of lives, but neither received a Nobel prize nor were they reconciled to each other.

Featuring a mix of famous and lesser-known stories, Great Feuds in Medicine includes the fascinating accounts of William Harvey's battle with the medical establishment over his discovery of the circulation of blood; Louis Pasteur's fight over his theory of germs; and the nasty dispute between American Robert Gallo and French researcher Luc Montagnier over who discovered the HIV virus.

Great Feuds in Medicine : Ten of the Liveliest Disputes ...
The only interesting story was the Salk vs. Sabin "feud", which was covered nicely, but others were a chore to read. It doesn't seem to me that the feud between Semmelweis and the Viennese Medical Establishment was so important as to be among the 10 feuds. The writing was not done in a way as to hold the reader's interest.
