A reminder that some of the most important factors in healing are not high-tech marvels but ordinary factors such as love, compassion, friendship, and hope.

Medical technology meets rural values of simplicity, home health remedies, and unwavering faith in divine providence when a country-boy-turned-country-doctor returns to his roots. House Calls and Hitching Posts is a sometimes humorous and often intimate account of Dr. Elton Lehman's 36 years practicing medicine among the Amish of Wayne, Holmes, and surrounding counties in Ohio, for which he was named Country Doctor of the Year. Now you can witness house calls and private moments between doctors and patients. Joe brings his dismembered fingers to the office in a coffee can filled with kerosene.

Katie delivers a boy for the doctor's first home-birth. And three-year-old Davy rallies to overcome a life-threatening illness at birth only to be crushed under a tractor wheel. Hoover captures in sometimes local vernacular the joys and dilemmas of a family practitioner among a rural and predominantly-Amish community. Includes two galleries of photographs from Dr. Lehman's distinguished career. Skyhorse Publishing, along with our Arcade, Good Books, Sports Publishing, and Yucca imprints, is proud to publish a broad range of biographies, autobiographies, and memoirs. Our list includes biographies on well-known historical figures like Benjamin Franklin, Nelson Mandela, and Alexander Graham Bell, as well as villains from history, such as Heinrich Himmler, John Wayne Gacy, and O. J. Simpson. We have also published survivor stories of World War II, memoirs about overcoming adversity, first-hand tales of adventure, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

The information in these pages will either excite you into beginning that house-call practice right away or scare you into keeping your day job. Either way, I'm glad you've chosen to learn about my happiness with beginning a house-call practice and to learn

# Read Free House Calls How We Can All Heal The World One Visit At A Time

from my struggles to maintain a business in the nation's current health-care state. Are you looking for a step-by-step guide on how to start a house-call practice? Are you looking for a few examples from an expert in the field of house calls to help guide your decision making? If you've answered yes to these questions, this is the book for you. Making medical house calls is an extremely rewarding and profitable niche practice that can be started with little or no overhead. If you already love or think you will love going into the home setting to provide primary care when health care is often scarce or unavailable, this is the field for you. This book is written with nuances and scenarios of a house-call practice for an advanced practice nurse, but if you are a physician assistant, physician, or any other practitioner looking to begin a housecall practice, there is plenty of information here for you too!

Small-town doctor Thomas Stern built a practice filled with memorable characters in rural Oregon. Then he moved to Southern California to work as technical advisor on the beloved TV series, "Marcus Welby, M.D". His life story is filled with episodes that are thought-provoking, heart-warming, and even rib-tickling.

When the White House Calls tells the life story of John Price, one of Utah's most

# Read Free House Calls How We Can All Heal The World One Visit At A Time

prominent citizens, beginning with his birth in Germany through his years as a successful builder and real estate developer--with business interests in broadcasting, manufacturing, distribution, and banking--to his life as a diplomat. Born in Berlin on August 18, 1933, Hans Joachim Praiss was five years old when he and his family fled Nazi Germany in April 1939. The family found temporary refuge in Panama, finally arriving at Ellis Island in September 1940 and settling in New York City. Following the advice of a professor at CCNY, Price traveled west to fulfill a geology fieldwork course requirement, but upon seeing the snow-capped mountains surrounding Salt Lake City, knew he would stay. He earned his Bachelor of Science in Geological Engineering from the University of Utah in 1956. He practiced in that field before tiring of the often rigorous travel requirements and the desolate nature of the work. He soon turned to new opportunities. Years later, after operating successful business enterprises throughout the Intermountain region and nationally, and serving on numerous local, state, and national boards, Price had become the consummate entrepreneur, businessman, and community leader. He was ready to serve his country when the White House called. In February 2002 he was sworn in as U.S. Ambassador to the Republic of Mauritius, the Republic of Seychelles, and the Union of the Comoros, three Indian Ocean island nations

# Read Free House Calls How We Can All Heal The World One Visit At A Time

off the east coast of Africa, where he served until 2005. In this telling autobiography, John Price focuses on his years as an ambassador and includes his thoughts on the future of sub-Saharan Africa. The account of his service as a diplomat offers readers a view of the daily life of an ambassador--the protocol for official meetings with heads of state, the routine of the office, the process of handling official communications, and the intricacies of diplomacy. More than that, in a world concerned with the global war on terror, he reflects on the three island nations where he served and on the region's increasing strategic importance to the national security of the United States. In the years since the 2001 attacks on the World Trade Center and the Pentagon, the al-Qaeda movement has grown and its members have dispersed throughout the world, including the region known as the Horn of Africa and East Africa. Price calls attention to the vulnerability of sub-Saharan Africa as a haven for terrorists, and the critical need for our engagement of this desperate continent with economic development, health care, and education to counter this threat. His concern for this region of Africa is carefully articulated in the text, as well as in interviews (included as appendixes) with notable country leaders. When the White House Calls is a compelling story of the American Dream realized, and the importance of service to country. This is a book that will both

educate and inspire young people, their mentors, and others, as they work to make a difference in the world.

The inspiring and hilarious story of Patch Adams's quest to bring free health care to the world and to transform the way doctors practice medicine • Tells the story of Patch Adam's lifetime quest to transform the health care system • Released as a film from Universal Pictures, starring Robin Williams

Meet Patch Adams, M.D., a social revolutionary who has devoted his career to giving away health care. Adams is the founder of the Gesundheit Institute, a home-based medical practice that has treated more than 15,000 people for free, and that is now building a full-scale hospital that will be open to anyone in the world free of charge. Ambitious? Yes. Impossible? Not for those who know and work with Patch. Whether it means putting on a red clown nose for sick children or taking a disturbed patient outside to roll down a hill with him, Adams does whatever is necessary to help heal. In his frequent lectures at medical schools and international conferences, Adams's irrepressible energy cuts through the businesslike facade of the medical industry to address the caring relationship between doctor and patient that is at the heart of true medicine. All author royalties are used to fund The Gesundheit Institute, a 40-bed free hospital in West Virginia. Adams's positive vision and plan

## Read Free House Calls How We Can All Heal The World One Visit At A Time

for the future is an inspiration for those concerned with the inaccessibility of affordable, quality health care. Today's high-tech medicine has become too costly, impersonal, and grim. In his frequent lectures to colleges, churches, community groups, medical schools, and conferences, Patch shows how healing can be a loving, creative, humorous human exchange--not a business transaction.

Maria Hallett has been captivated by the dashing pirate, Black Sam Bellamy, but he leaves her-alone and pregnant in 1713. The baby nearly dies at birth, but Maria's father, John, goes across a field in time to entice modern hunky OB/GYN doctor, Angus McPherson, to come to her rescue. Dr. Angus saves the baby's life, using modern means, but is shocked when he learns he has made the ultimate HOUSE CALL TO THE PAST. When Maria is accused of witchcraft, he opts to stay with her in the past, offering to marry her to save her from a lifetime in prison. Maria agrees, but vows she will never love anyone but Black Sam. Can Dr. Angus win her love? And can he protect her from Black Sam, if he returns? A page-turning challenge ensues, proving that hopefully good once again triumphs over evil. Watch for the sequel, PORT CALL TO THE FUTURE, to learn the other half of the story: what really happened to Black Sam Bellamy?
