Review: Hyundai i10 (2020) | Honest John

Older Hyundai cars with A4CF 4-speed automatic transmission suffer from a fairly common problem with gear changes. There will be a noticeable slippage during gear changes between 2nd, 3th, and 4th gear. Other problems included shifting to reverse can be delayed and followed by a clunk. These symptoms might be more noticeable when cold.

Hyundai Transmission Problems | YOUCANIC

A Hyundai automatic transmission is a torque-converter automatic transmission, while a Hyundai dual-clutch transmission is a computer-operated manual transmission that uses double clutches to effect near instant gear shifting in both directions, as one clutch gears up and one down.
