The overall lesson is that thinking less positively about yourself and your capabilities creates a loss of self confidence. So, in order to gain self confidence, rather than continue losing it, just do the opposite. Indeed, this is the entire secret to regaining your self confidence: thinking more positively about yourself and your capabilities.

I Got You Restoring Confidence In Love And Relationships ...

I cannot tell you every single step you should take to get you to where you are trying to go in life. But what I can do is make sure you have enough confidence to trust your own judgments, regardless of past mistakes. I want you to understand that it's okay to be exactly where you are right now, whether you are single or in a relationship.

This book isn't about playing a game to get what you want. It's about you looking at yourself and finding ways to learn how to grow as an individual. I cannot tell you every single step you should take to get you to where you are trying to go in life. But what I can do is make sure you have enough confidence to trust your own judgments, regardless of past mistakes. I want you to understand that it's okay to be exactly where you are right now, whether you are single or in a relationship. Appreciate where your journey is taking you, but be able to identify areas that need to change. I want you to read this book and have a better understanding of the present. I want you to know that trying to get it right is a constant process. We never arrive at a place of knowing it all. For as long as we are alive, we are challenged to grow, learn, evolve, and mature. Love is a decision, not a destination. It's not something you stumble upon. You must choose to walk in it, give to it, and become it. Each of us travels a different path to find the love we are searching for. Some find what they are looking for instantly, while others must jump over a few hurdles before realizing they have finally found something special. In essence, we are all just working towards what we believe we deserve- our fair chance at love and happiness.

Maybe it's not supposed to be easy for you. Maybe you're one of the rare few that can handle tough times and still choose to be a loving person. Maybe it's going how it's going because you're built for it. Maybe you still have time to choose to be different... and God would rather slow it all down and frustrate you than to let it keep going the way it is and fail you. Maybe it's just your time to refine. Maybe the pieces are being put into position and maybe it's not a test at all. Maybe there is a future tailored specifically to what's best for you ahead and rushing it could ruin it. Maybe you're as different as you feel and maybe you'll stay strong long enough to teach people to feel the same about themselves. Maybe we'll call it love. Maybe this is just what your growth looks like in this season and it's okay to accept and love that person. As long as you know you're giving it your all and the very best of you, keep going! Don't stress a thing. It's going to work out because you're not going to stop putting the work in. *Signed copies available exclusively on RobHillSr.com*

As he sheds light on the hidden emotional psychological recesses of the black man's inner world, Dr. Elmore provides down-to-earth advice and real-life anecdotes drawn from his seminars and radio call-in shows to show women how to create the fulfilling relationship each partner wants and deserves.

"Imprisoned in a remote Turkish prison camp during World War I, having survived a two-month forced march and a terrifying shootout in the desert, two British officers, Harry Jones and Cedric Hill, join forces to bamboozle their iron-fisted captors"--

There are many things men and women can disagree about, but the one thing we can't argue is that for each of us, life happens. Growth is about appreciating when life is good. While also learning to deal with things that are beyond our control. These experiences either break us or shape us into stronger individuals. There is a beautiful design for love between men and women. Truce is an opportunity to discover its true potential. The battle of the sexes has left us with an improper, and at times unhealthy understanding of one another. When our relationships don't go the way we want them to we can feel like something is wrong with us. Men and women need time - to grow, to learn, to heal, and to reconsider the ways we attempt to love each other. Truce is a guide for us to meet all disappointments with faith in ourselves and the future.

For anyone who has suffered pain, disappointment, or a broken heart, entrepreneur and motivational speaker Rob Hill, Sr. shares the transformational personal story of his struggles and the invaluable lessons those difficult challenges have taught him about looking within to find the power to heal and live a purposeful life. Often the greatest opponent we face in the game of life is ourselves. We spend hours, days, and years searching for answers to the questions of our hearts. But the answer is there. Our full awareness of self, our understanding of purpose, and our appreciation for the power of love are the missing pieces needed to heal the pain so many us feel. It was the answer to the pain I felt. These inspirational nuggets of wisdom are just a few of the priceless life lessons that have struck a chord with hundreds of thousands of people and earned Rob Hill Sr. the title, "heart healer." Ever since Hill made the courageous decision to dedicate his life to helping others, his own painful coming-of-age experiences—homelessness, a damaged relationship with his father, hours spent contemplating suicide—have served as the basis for his positive message of healing and transformation. Whether you struggle with fostering healthy relationships, finding love, believing in yourself, overcoming the obstacles life tosses in your way, or any other number of conflicting human experiences, Hill's perceptive, penetrating yet compassionate words will help you find your way. The Missing Piece is the captivating story of the man behind the powerful, uplifting message, part memoir and part roadmap to deep personal contentment and success.

In "Infectious Greed," the authors begin with an assessment of what really happened in the recent big business collapses. Next, they offer systematic solutions that align incentives to promote desirable actions. Their solutions build on what's best about capitalism, and can truly restore the investor confidence that is essential to the system's long-term success.

Black Love Matters is an in-depth qualitative analysis that focuses on a diverse group of adult black men and their attitudes towards behavior in marriage and romantic relationships. To give voice to the men's narratives, Black Love Matters follows the men for four years, chronicling the experiences and the circumstances shaping their relationship trajectories. Highlights include discussions related to the roles that sex, infidelity, intimacy, trauma, family of origin, masculinity, and environmental factors play in the men's attitudes and behaviors. Given the dearth of literature on black men featuring first-hand accounts from them, Black Love Matters makes a significant contribution to the existing literature that seems to be disproportionately focused on implicating black men in discussions of what ills their families and communities.

A small book to help parents recover their clarity and confidence. It focusses on how parents can manage themselves effectively rather than the common focus on understanding and managing the child. A timely book for parenting children of all ages.
