Indigeneity and Universality in Social Science. Emerging out of the Renaissance and the industrial revolution, the set of disciplines that got institutionalised as the social sciences were fashioned in Europe. However, what were areas of scholarly inquiry responding to specifically Western problems and concerns, laid claim to universality in course of time and were uncritically accepted as being so until they began to be challenged by non-Western thinkers in the second half of the twentieth ...

This chapter affirms African Indigeneity as a powerful decolonial stance to investigate the possibilities of African Indigenous knowledges. ... This stance demands a continuing questioning of the universality of Western science through anti-colonial and decolonial prisms. ... Land, social justice, equity, and youth leadership. This is the very ...
