The Plot Against America is a novel by Philip Roth published in 2004. It is an alternative history in which Franklin D. Roosevelt is defeated in the presidential election of 1940 by Charles Lindbergh.The novel follows the fortunes of the Roth family during the Lindbergh presidency, as antisemitism becomes more accepted in American life and Jewish-American families like the Roths are persecuted ...

The Plot Against America - Wikipedia

The Nine Nations of North America is a 1981 book by Joel Garreau, in which the author suggests that North America can be divided into nine nations, which have distinctive economic and cultural features. He also argues that conventional national and state borders are largely artificial and irrelevant, and that his "nations" provide a more accurate way of understanding the true nature of North American society. The work has been called "a classic text on the current regionalization of North Americ

Journey into America - Brookings

America America, by Ethan Canin. 3.66 - Rating details - 3,409 ratings - 597 reviews. A stunning novel, set in a small town during the Nixon era and today, about America and family, politics and tragedy, and the impact of fate on a young man's life. In the early 1970s, Corey Sifter, the son of working-class parents, becomes a yard boy on the grand estate of the powerful Metarey family.

America America by Ethan Canin - Goodreads

The Americanis a novel by Henry James, originally published as a serial in The Atlantic Monthlyin 1876-77 and then as a book in 1877. The novel is an uneasy combination of social comedy and melodramaconcerning the adventures and misadventures of Christopher Newman, an essentially good-hearted but rather gauche American businessman on his first tour of Europe.

The American (novel) - Wikipedia

American literature - American literature - The novel and short story: Two distinct groups of novelists responded to the cultural impact, and especially the technological horror, of World War II. Norman Mailer's The Naked and the Dead (1948) and Irwin Shaw's The Young Lions (1948) were realistic war novels, though Mailer's book was also a novel of ideas, exploring fascist thinking and an ...

The American literature - Wikipedia

A historical novel follows the efforts of a group of Poles, led by a famous actress, to build a utopian commune in California in the 1870s.

On a mission to recruit young women for their church, Mason LaVerle and Elias Stark leave Montana and experience the excesses of contemporary American society in a Colorado ski town along with its colorful inhabitants.

Scholars, journalists, and publishers have turned their brains inside out in the effort to predict what lies ahead, but who better to comment on the future of the book than those who are driven to write them? The way we absorb information has changed dramatically. Edison's phonograph has been reincarnated as the iPod. Celluloid went digital. But books, for the most part, have remained the same--until now. And while music and movies have undergone an almost Darwinian evolution, the literary world now faces a revolution, a sudden change in the way we buy, produce, and read books. In The Late American Novel, Jeff Martin and C. Max Magee gather some of today's finest writers to consider the sea change that is upon them. Lauren Groff imagines an array of fantastical futures for writers, from poets with groupies to novelists as vending machines. Rivka Galchen writes about the figurative and literal death of paper. Joe Meno expounds upon the idea of a book as a place set permanently aside for the imagination, regardless of format. These and other original essays by Reif Larsen, Benjamin Kunkel, Victoria Petroerson, and many more provide a timely and much-needed commentary on this compelling cultural crossroad.

"An elegant, meticulously researched, and eminently readable history of the books that define us as Americans. For history buffs and book-lovers alike, McHugh offers us a precious gift."--Jake Halpern, Pulitzer Prize winner and New York Times bestselling author "With her usual eye for detail and knack for smart storytelling, Jess McHugh takes a savvy and sensitive look at the "secret origins" of the books that made and defined us. . . . You won't want to miss a one moment of it."--Brian Jay Jones, author of Becoming Dr. Seuss and the New York Times bestselling Jim Henson The true, fascinating, and remarkable history of thirteen books that defined a nation Surprisingly and delightfully engrossing, American explores the true history of thirteen of the nation's most popular books. Overlooked for centuries, our simple dictionaries, spellers, almanacs, and how-to manuals are the unexamined touchstones for American cultures and customs. These books sold tens of millions of copies and set out specific archetypes for the ideal American, from the self-made entrepreneur to the humble farmer. Benjamin Franklin's Autobiography, How to Win Friends and Influence People, Webster's Dictionary, Emily Post's Etiquette: American looks at how these ubiquitous books have updated and reemphasized potent American ideals--about meritocracy, patriotism, or individualism--at crucial moments in history. Old favorites like the Old Farmer's Almanac and Betty Crocker's Picture Cook Book are seen in this new way--not just as popular books but as foundational texts that shaped our understanding of the American story. Taken together, these books help us understand how their authors, most of them part of a powerful minority, attempted to construct meaning for the majority. Their beliefs and quirks--as well as personal interests, prejudices, and often strange personalities--informed the values and habits of millions of Americans, woven into our cultural DNA over generations of reading and dog-earing. Yet their influence remains uninvestigated--until now. What better way to understand a people than to look at the books they consumed most, the ones they returned to repeatedly, with questions about everything from spelling to social mobility to sex. This fresh and engaging book is American history as you've never encountered it before.

Gil Gamesh is the only pitcher who ever tried to kill the umpire, and John Baal, The Babe Ruth of the Big House, never hit a home run sober. But you've never heard of them -- or of the Ruppert Mundys, the only homeless big-league ball team in American history -- because of the communist plot and the capitalist scandal that expunged the entire Patriot League from baseball memory. Philip Roth's richly imagined satiric narrative, The Great American Novel, turns baseball's status as national pastime and myth into an unfettered farce featuring heroism and perfidy, lively wordplay and a cast of characters that includes The House Un-American Activities Committee.

DISCOVER THE NOVEL BEHIND THE BRILLIANT NEW TV DRAMA "Though on the morning after the election disbelief prevailed, especially among the pollsters, by the next everybody seemed to understand everything..." When celebrity aviator, Charles A. Lindbergh, wins the 1940 presidential election on the slogan of "America First", fear invades every Jewish household. Not only has Lindbergh blamed the Jews for pushing America towards war with Germany, he has negotiated an "understanding" with the Nazis promising peace between the two nations. Growing up in the "ghetto" of Newark, Philip Roth recounts his childhood caught in the stranglehold of this counterfactual nightmare. As America sinks into its own dark metamorphosis and Jewish families are torn apart, fear and uncertainty spread. Who really is President Lindbergh? And to what end has he hijacked America?

The first book in many years to take in the full sweep of national fiction, The Dream of the Great American Novel explains why this supposedly antiquated idea continues to thrive. It shows that four G.A.N. "scripts" are keys to the dynamics of American literature and identity--and to the myth of a nation perpetually under construction.

An intimate journey across and in search of America, as told by one of its most beloved writers, in a deluxe centennial edition In September 1960, John Steinbeck embarked on a journey across America. He felt that he might have lost touch with the country, with its speech, the smell of its grass and trees, its color and quality of light, the pulse of its people. To reassure himself, he set out on a voyage of rediscovery of the American identity, accompanied by a distinguished French poodle named Charley; and riding in a three-quarter-ton pickup truck named Rocinante. His course took him through almost forty states: northward from Long Island to Maine; through the Midwest to Chicago; onward by way of Minnesota, North Dakota, Montana (with which he fell in love), and Idaho to Seattle, south to San Francisco and his birthplace, Salinas; eastward through the Mojave, New Mexico, Arizona, to the vast hospitality of Texas, to New Orleans and a shocking drama of desegregation; finally, on the last leg, through Alabama, Virginia, Pennsylvania, and New Jersey to New York. Travels with Charley in Search of America is an intimate look at one of America's most beloved writers in the later years of his life--a self-portrait of a man who never wrote an explicit autobiography. Written during a time of upheaval and racial tension in the South--which Steinbeck witnessed firsthand--Travels with Charley is a stunning evocation of America on the eve of a tumultuous decade. This Penguin Classics Deluxe Edition also features French flaps and deckle-edged paper. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

A diverse anthology of poetry, fiction and essays from the most exciting writers around the world in this "fresh, provocative, engrossing" literary journal (BBC.com). The literary anthology Freeman's, created by writer, critic, and former Granta editor John Freeman, has quickly gained an international following with wide acclaim. It has been called "bold [and] searching" by the Minneapolis Star-Tribune and "impressively diverse" by O Magazine. This issue introduces a list of more than twenty-five poets, essayists, novelists, and short story writers from around the world who are shaping contemporary literature and will continue to impact it in years to come. Drawing on recommendations from book editors, critics, translators, and authors from across the globe, Freeman's: The Future of New Writing includes pieces from writers aged twenty-five to seventy, from almost twenty countries and writing in almost as many languages. This will be a new kind of list, and an aesthetic manifesto for our times. Against a climate of nationalism and siloed thinking, this special issue celebrates a global view of where writing is going next. "The oldest is 70. The youngest, 26. In between, the best list of this kind I have ever seen."--Marion James

An illuminating history of North America's eleven rival cultural regions that explodes the red state-blue state myth. North America was settled by people with distinct religious, political, and ethnographic characteristics, creating regional cultures that have been at odds with one another ever since. Subsequent immigrants didn't confront or assimilate into an "American" or "Canadian" culture, but rather into one of the eleven distinct regional ones that spread over the continent each staking out mutually exclusive territory. In American Nations, Colin Woodard leads us on a journey through the history of our fractured continent, and the rivalries and alliances between its component nations, which conform to neither state nor international boundaries. He illustrates and explains why "American" values vary sharply from one region to another. Woodard (author of American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good) reveals how intranational differences have played a pivotal role at every point in the continent's history, from the American Revolution and the Civil War to the tumultuous sixties and the "blue county/red county" maps of recent presidential elections. American Nations is a revolutionary and revelatory take on America's myriad identities and how the conflicts between them have shaped our past and are molding our future.
