 Jaguar Mk.II 3.4, 3.8, 240 & 340 Workshop Manual by Emeritus Professor of Biochemistry R Bentley (Paperback, 1992) £32.85 New Jaguar E Type V12 Series 3 Workshop Manual by Brooklands Books Ltd (Paperback, 1990)

When installing or servicing an air conditioning or refrigeration system, two of the most important tasks performed by technicians are refrigerant recovery and system evacuation. In order to perform these tasks properly, and in a safe manner, technicians need to understand the theory behind them, having a working knowledge of the equipment and tools used, and employ accepted industry best practices. This e-book walks through each step of both tasks, while covering safety, theory, and application. Also covered are leak detection methods and filter drier use. System Recovery and Evacuation was written by HVACR instructors for HVACR instructors to provide sound, relevant information in a single source. This e-book provides students and practicing technicians with the information and knowledge necessary to understand refrigerant recovery, system evacuation, leak detection, and filter driers. It is full of color illustrations and includes worksheets that provide students and practicing technicians with the information and knowledge necessary to accurately and safely install or service air conditioning and refrigeration systems. The end of the e-book contains fill-in-the-blank questions that review the content of the entire manual.

This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time.It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

The Maserati Owner's Handbook, originally published by Floyd Clymer in 1961 is packed with photos, manuals and specs of the great Maseratis from the early pre-war cars to the glory days of the postwar 1950s. Includes an introduction by Pete Vack. A must have for the Maserati enthusiast.
 Automatic A0D, BW 35/40, LE85/91/93/95/97, C4, C5, C6, C9, C10, FMX and M51. Manual 3 speed, 4 speed and 5 speed single rail, Top Loader, T5 and M57. Step by step instructions for a pull down and rebuild. Includes specifications, torque settings, problem diagnosis, shift speeds plus more information. This book is from an Australian publisher, and covers both American and Australian applications.
