When Shrimant Bajirao Peshwa, feared by even the mighty Mughals, hears the exquisite Mastani sing, the passion that sparks between them grows quickly into a raging fire. The Peshwa defies his orthodox Brahmin heritage, declaring his love openly for the half-Muslim dancer, in the face of fierce opposition. A man way ahead of his time, Bajirao causes outrage when he marries Mastani, bringing her into his home as his second wife. N.S. Inamdar's timeless tale, that has inspired both film and television, brings alive the romance, intrigue and valour of the eighteenth-century Maratha empire. This irresistible novel is one of India's favourite love stories.

Whether different types of costs are to be reduced, benefits to be maximized or scarce resources to be managed, scheduling theory provides intelligent methods for practitioners and scientists. The just-in-time (JIT) production philosophy has enriched the classical scheduling theory with models that consider characteristics such as inventory costs, set-up times, lot sizing, or maintenance. This edited volume considers the specifics of just-in-time systems. It provides knowledge and insights on recent advances in scheduling theory where just-in-time aspects are considered. Contributions on models, theory, algorithms, and applications, that bring the theory up-to-date on the state-of-the-art of JIT systems are presented. Professionals, researchers and graduate students will find this book useful.

Science 2 A

Provides an overview of the concepts covered on the Test of English as a Foreign Language along with practice questions, two practice tests, a word list, and a guide to prefixes, suffixs, and word roots.
