Levine's Conservation Model provides a useful structure for older adult care in the long term care setting. As an ideal care manager, the AGNP would be well served to consider use of the model to guide advanced nursing practice. Recommendations for clinical practice, research, and health policy.

Levine's Conservation Model: A Framework for Advanced ...

Levine ' s conservation model focuses on the promotion of adaptation and maintaining wholeness by conserving energy, structure, and person and social integrity (Levine, 1967). Targeted interventions that promote energy and integrity are the foundation for advanced practice.

Levine's Conservation Model: A Framework for Advanced ...

'Levine's Conservation Model' was initially developed to provide an organizing framework for teaching the fundamental principles of nursing. As students of Levine moved into their professional roles, they used these principles (conservation of energy, structural integrity, personal integrity and social integrity) as a basis for the care they provided to patients.
