A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Covers all models of Amigo, Hombre, Pick-Ups, Rodeo and Trooper, 2 and 4 wheel drive, gasoline and diesel engines.

The use of fuel cells as independent power sources is expected to become increasingly widespread. This book aids understanding of the technology by setting out the working methods, behaviour, limitations, special features and potential of fuel cells. This edition includes a section on standards within the industry.

From the Vegas Strip to Wall Street boardrooms and Federal courts, modern corporate titans collide in this explosive true story of how private equity firm Apollo Global Management's thirty-billion-dollar buyout of Caesars Entertainment turned into unprecedented bankruptcy of the gaming empire. In the bestselling tradition of Michael Lewis's *The Big Short* and Ben Mezrich's *Bringing Down the House*, journalists Max Frumes and Sujeet Indap deliver a page-turning account of the spectacular 2015 bankruptcy of America's biggest gaming empire, Caesars Entertainment. Backdropping this thrilleresque narrative are the jokers, kings, and called bluffs at the center of the modern distressed-debt-investing world. Distressed-debt investing, dubbed "vulture investing" in its infancy, is the buying of debt of struggling corporations, institutions, and even cities or countries—and making a windfall profit on a turnaround. In covering the extraordinary Caesars case, *The Caesars Palace Coup* presents a riches-to-rags adventure unlike any other as it appraises the battling billionaires who held the cards in 2008's leveraged buyout. This wild coup's scope spans courtrooms, levels of government, academic halls, and ultimately involves an entire corrupt system of liar's poker. Readers will discover just how rivetingly sophisticated—and underhanded—the high-stakes finance battleground has become. Authors Frumes and Indap, experienced business journalists, illuminate the major players and businesspeople at the tipping points of almost every major vulture's turnaround in recent history. *The Caesars Palace Coup* reveals the cut-throat, multilevel competition enacted by powerful investors used to getting their own way. And goes one step further to consider the devastating, true impact of the upheaval wrought by their actions. It's a treacherous game. Roll the dice.

The Wet Tropics is a World Heritage area covering almost 900,000 hectares between Townsville and Cooktown in Far North Queensland Australia. This book features over 200 different sites in this area including waterfalls, mountain streams, major rivers, lakes, swamps, swimming holes, and all types of fresh water that is easily accessible to the general public. With maps and GPS settings it shows how to reach these places, and over 300 beautiful images show what to expect when you get there.
