WINNER OF THE SPERBER PRIZE · NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO CHRONICLE AND PUBLISHERS WEEKLY · This fascinating biography reveals the untold story of the legendary New Yorker profile writer—author of Joe Gould’s Secret and Up in the Old Hotel—and unravels the mystery behind one of literary history’s greatest disappearing acts. Born and raised in North Carolina, Joseph Mitchell was Southern to the core. But from the 1930s to the 1960s, he was the voice of New York City. Readers of The New Yorker cherished his intimate sketches of the people who made the city tick—from Mohawk steelworkers to Staten Island oystermen, from homeless intellectual Joe Gould to Old John McSorley, founder of the city’s most famous saloon. Mitchell’s literary sensibility combined with a journalistic eye for detail produced a writing style that would inspire New Journalism luminaries such as Gay Talese, Tom Wolfe, and Joan Didion. Then, all of a sudden, his stories stopped appearing. For thirty years, Mitchell showed up for work at The New Yorker, but he produced . . . nothing. Did he have something new and exciting in store? Was he working on a major project? Or was he bedeviled by an epic case of writer’s block? The first full-length biography of Joseph Mitchell, based on the thousands of archival pages he left behind and dozens of interviews, Man in Profile pieces together the life of this beloved and enigmatic literary legend and answers the question that has plagued readers and critics for decades: What was Joe Mitchell doing all those years? By the time of his death in 1996, Mitchell was less well known for his elegant writing than for his J. D. Salinger–like retreat from the public eye. For thirty years, Mitchell had wandered the streets of New York, chronicling the lives of everyday people and publishing them in the most prestigious publication in town. But by the 1970s, crime, homelessness, and a crumbling infrastructure had transformed the city Mitchell understood so well and spoke for so articulately. He could barely recognize it. As he said to a friend late in life, “I’m living in a state of confusion.” Fifty years after his last story appeared, and almost two decades after his death, Joseph Mitchell still has legions of fans, and his story—especially the mystery of his “disappearance”—continues to fascinate. With a colorful cast of characters that includes Harold Ross, A. J. Liebling, Tina Brown, James Thurber, and William Shawn, Man in Profile goes a long way to solving that mystery—and bringing this lion of American journalism out of the shadows that once threatened to swallow him. Praise for Man in Profile “[An] authoritative new biography [about] our greatest literary journalist . . . Kunkel is the ideal biographer of Joseph Mitchell: As . . . a writer and craftsman worthy of his subject.”—Blake Bailey, The New York Times Book Review (Editor’s Choice) “A richly persuasive portrait of a man who cared about everybody and everything.”—London Review of Books “Mitchell’s life and achievements are brought vividly alive in [this] splendid book.”—Chicago Tribune “A thoughtful and sympathetic new biography.”—Ruth Franklin, The Atlantic “Excellent . . . A first-rate Mitchell biography was very much in order.”—The Wall Street Journal

America’s secret lies in the liberties that Americans and others see incarnated in the daily life of the land—its courts, its marketplaces, its schools and churches, its families and friendships. From the records of many of these places comes this collection of patriotic quotes that will inspire the hearts and souls of all Americans to stand united against the forces of terror.

BOOT CAMP FOR PROPHETS! The study of Asian historical demography has lagged behind that of its European and American counterparts for some time. This volume serves to narrow the gap by drawing together material from scholars specializing in demography across the spectrum of Asian countries. The collection divides into four parts and contains nineteen chapters covering issues on comparative perspective, fertility, disease and mortality, and marriage and family. The geographic coverage of the chapters is also wide, extending from East Asia to South Asia, with specific emphasis on Japan, China, Taiwan, Indonesia, India, and Sri Lanka. Authors focus on a whole range of social groups, discussing how demographic issues affect and have affected both urban and rural dwellers from the seventeenth to the twentieth century. This volume, which is perhaps the first to bring together a number of in-depth, specialist studies on Asian population history, should prove a useful and engaging tool for both students and academics in the fields of demography, history, and Asian studies.

"Amazing stories! Incredible quotes! Sordid details! This book shows that a genius in the realm of thought can be a dummy in the land of love." — Tom Morris, author of If Aristotle Ran General Motors What do René Descartes, John Locke, Jean-Jacques Rousseau, and Jean-Paul Sartre have in common? That's right: they were all hopeless failures when it came to romance. Author Andrew Shaffer explores the paradox at the core of Western philosophical thought—that history's greatest thinkers were also the most pathetic lovers to ever walk the earth. With razor-sharp wit and probing insight, Shaffer shows how it's the philosophers' missteps, as much as their musings, that are able to truly boggle the intellect.

Inspired by New York Times bestselling author Neal Stephenson, an anthology of stories, set in the near future, from some of today's leading writers, thinkers, and visionaries that reignites the iconic and optimistic visions of the golden age of science fiction. In his 2011 article "Innovation Starvation," Neal Stephenson argued that we-the society whose earlier scientists and engineers witnessed the airplane, the automobile, nuclear energy, the computer, and space exploration—must reignite our ambitions to think boldly and do Big Stuff. He also advanced the Hieroglyph Theory which illuminates the power of science fiction to inspire the inventive imagination: "Good SF supplies a plausible, fully thought-out picture of an alternate reality in which some sort of compelling innovation has taken place." In 2012, Arizona State University established the Center for Science and the Imagination to bring together writers, artists, and creative thinkers with scientists, engineers, and technologists to cultivate and expand on "moon shot ideas" that inspire the imagination and catalyze real-world innovations. Now comes this remarkable anthology uniting twenty of today's leading thinkers, writers, and visionaries—among them Cory Doctorow, Gregory Benford, Elizabeth Bear, Bruce Sterling, and Neal Stephenson—to contribute works of "techno-optimism" that challenge us to dream and do Big Stuff. Engaging, mind-bending, provocative, and imaginative, Hieroglyph offers a forward-thinking approach to the intersection of art and technology that has the power to change our world.

In a startlingly innovative format, Journalist Stephen A. Wrynalds has constructed a painstakingly detailed day-by-day breakdown of president Abraham Lincoln's decisions in office—including his signing of the Homestead Act on May 20, 1862; his signing of the legislation enacting the first federal income tax on August 5, 1861; and more personal incidents like the day his eleven-year-old son, Willie, died. Revealed are Lincoln's private frustrations on September 28, 1862, as he wrote to vice president Hannibal Hamlin, "The North responds to the [Emancipation] proclamation sufficiently with breath; but breath alone kills no rebels." 366 Days in Abraham Lincoln's Presidency includes fascinating facts like how Lincoln hated to hunt but loved to fire guns near the unfinished Washington monument, how he was the only president to own a patent, and how he recited Scottish poetry to relieve stress. As Scottish historian Hugh Blair said, "It is from private life, from familiar, domestic, and seemingly trivial occurrences, that we most often receive light into the real character." Covering 366 nonconsecutive days (including a leap day) of Lincoln's presidency, this is a rich, exciting new perspective of our most famous president. This is a must-have edition for any historian, military history or civil war buff, or reader of biographies.
