NS Math Circles is expanding to include Elementary Schools! The below is a list of presentations appropriate for elementary school classes, in alphabetical order. If you would like us to come and give any of these presentations in your classroom for free, please use the contact form on the School Visits page.

~~NS Math Circles is expanding to include Elementary Schools!~~

Math circles are meetings between mathematicians and K-12 students or teachers where they work on problem solving. These gatherings typically take place

outside the regular school day. The...

~~So What Exactly Is a Math Circle? — Time and Learning ...~~

In the elementary circle, the focus is on logical reasoning, "thinking like a mathematician," and problem solving. Higher Mathematics In the middle and high school circles, students are exposed to skills and topics in higher mathematics that are outside the standard mathematics curriculum.

~~Stanford Math Circle Homepage | Math Circle~~

Math Circles are places where students and teachers get to engage with mathematically deep content presented in unique ways that promote hands-on discovery. Low-threshold, high-ceiling problems can be approached by students with minimal background but still lead to concepts rooted in advanced mathematics.

~~Exploring the Fun Side of Math — Math Circles~~

Math circles are meetings between mathematicians, students and teachers where students solve age-appropriate math problems through games, stories, and hands-on activities. Math circles expand upon the ideas of the Stevens Math Olympiad , which are to introduce important mathematical concepts, strengthen mathematical intuition and to stimulate enthusiasm, creativity and ingenuity.

Welcome to the ULCA Olga Radko Endowed Math Circle (ORMC)! Math Circle Gets a New Name. A substantial lead gift from the long term Math Circle supporter Sierra Chen has established an endowment honoring the late Math Circle's founding director Olga Radko. Thanks to Sierra's generosity, the Math Circle will now be named the UCLA Olga Radko Endowed Math Circle (ORMC).

The Math Circles of Chicago serves children in grades 5 through 12. Our free programs are held at eight different sites. Sessions generally meet once every other week, and the grade levels served vary and are detailed below. Every site is open to children attending any school. This winter, all MC2 sessions will meet online.

~~Locations — Math Circles of Chicago~~

Math Circles. Math circles are groups of students who come together to have fun discussing and solving intriguing math questions.

~~Math Circles | beanz Magazine~~

In 2012, a new circle was founded at Audubon Elementary School, which moved to Lane Tech at the start of the 2014 school year. In 2014 a third circle was opened in Chicago's Bridgeport neighborhood. These latter two sites host middle school students and were an outgrowth of the efforts of doctoral students in UIC's Mathematics Department. In 2015 the Math Circles of Chicago introduced two new sites. In Pilsen we partner with the Gads Hill Center.
