Health insurance | Private health insurance | Health on...

What is health insurance? Health insurance is an insurance policy designed to cover the cost of private medical treatment. It will generally cover you for ' acute conditions ', such as a hip replacement or having a hernia removed. You can buy different types of policies that offer various levels of cover, at varying costs.

Compare Health Insurance Quotes | Compare the Market

Health insurance, often referred to as private medical insurance (PMI), is an insurance policy which helps cover the cost of private treatment for pre-agreed conditions and ailments. You'll sometimes hear it called PMI, but in most cases the product is the same - although what's covered will vary from policy to policy.

Health Insurance | Compare Quotes with GoCompare

Private medical insurance is designed to cover the cost of private medical treatment for acute conditions. An acute condition is a disease, illness or injury that is likely to respond quickly to treatment and return someone to the state of health they were in before, or lead to a full recovery.
