President Donald Trump opposes renaming bases like Fort Hood and has threatened to veto the popular measure over the provision ...

But those politicians and generals could not foresee the impact of four years of bloody war on their efforts to provide proper justice."

"From 1861 through 1865, southern women fought a war within a war. While most of their efforts involved activities such as rolling bandages and organizing charity fairs, many women in the Confederacy, particularly in border states, challenged Federal authority in more direct ways: smuggling maps, medicine, and munitions; aiding deserters; spying; feeding Confederate bushwhackers; cutting Federal telegraph wires. Thomas P. Lowry's investigation into some 75,000 Federal courts-martial - uncovered in National Archives files and mostly unexamined since the Civil War - brings to light women caught up in the inexorable Unionist judicial machinery. Their stories, published here for the first time, often in first-person testimony, compose a picture of courage and resourcefulness in the face of social, military, and legal constraints."--BOOK JACKET.

Partisan activities of disloyal women and the Union army ' s reaction During the American Civil War, more than four hundred women were arrested and imprisoned by the Union Army in the St. Louis area. The majority of these women were fully aware of the political nature of their actions and had made conscious decisions to assist Confederate soldiers in armed rebellion against the U.S. government. Their crimes included offering aid to Confederate soldiers, smuggling, spying, sabotaging, and, rarely, serving in the Confederate army. Historian Thomas F. Curran ' s extensive research highlights for the first time the female Confederate prisoners in the St. Louis area, and his thoughtful analysis shows how their activities affected Federal military policy. Early in the war, Union officials felt reluctant to arrest women and waited to do so until their conduct could no longer be tolerated. The war progressed, the women ' s disloyal activities escalated, and Federal response grew stronger. Some Confederate partisan women were banished to the South, while others were held at Alton Military Prison and other sites. The guerilla war in Missouri resulted in more arrests of women, and the task of incarcerating them became more complicated. The women ' s offenses were seen as treasonous by the Federal government. By determining that women—who were excluded from the politics of the male public sphere—were capable of treason, Federal authorities implicitly acknowledged that women acted in ways that had serious political meaning. Nearly six decades before U.S. women had the right to vote, Federal officials who dealt with Confederate partisan women routinely referred to them as citizens. Federal officials created a policy that conferred on female citizens the same obligations male citizens had during time of war and rebellion, and they prosecuted disloyal women in the same way they did disloyal men. The women arrested in the St. Louis area are only a fraction of the total number of female southern partisans who found ways to advance the Confederate military cause. More significant than their numbers, however, is what the fragmentary records of these women reveal about the activities that led to their arrests, the reactions women partisans evoked from the Federal authorities who confronted them, the impact that women ' s partisan activities had on Federal military policy and military prisons, and how these women ' s experiences were subsumed to comport with a Lost Cause myth—the need for valorous men to safeguard the homes of defenseless women.

The Articles of War for the Government of the Confederate States of America is one of the most important documents created, and this applies to every military in the world. Today in the United States Military it is known as the Uniform Code of Military Justice. It is printed here with the original title...but it really should be called the Confederate States of America Uniform Code of Military Justice. This book was created from a copy from 1861. It contains all Articles of the original copy.

The Union army had over 75,000 courts-martial. The most controversial 1,100 came to Lincoln for a final decision. Would this man live or die? Would this officer be booted out in disgrace or given another chance? Did Lincoln mellow, become more merciful, as the war progressed? How did his clemency compare with that of Jefferson Davis? All these questions are answered by full Lincoln quotes and rigorous statistical analysis. Aspects of the war, hidden for generations, come to light here.
