loving father crafted a small blue wooden train engine for his son, Christopher. The stories that this father, the Reverend W Awdry, made up to accompany the wonderful toy were first published in 1945 and became the basis for the Railway Series, a collection of books about Thomas the Tank Engine and his friends--and the rest is history. Thomas & Friends now make up a big extended family of engines and others on the Island of Sodor. They appear not only in books but also in television shows and movies and as a wide variety of beautifully made toys. The adventures of Thomas and his friends, which
