Network Administrators Survival Guide | Computerworld

This piece from contributor Douglas Chick presents a humorous look at surviving in your role as a network administrator. By. Douglas Chick. To be a good network administrator is to have your end users love you. To be a great network administrator is to have your users too scared to ask you for help. The first kind, the good administrator, will allow you a modest job, with meager wages and your every moment dictated by everyone from the girl at the front desk to the owners relatives, and ...
