### Nutraceuticals or Functional Foods - Food Facts

The main difference between functional foods and nutraceuticals is that functional foods are the food with bioactive compounds such as beta-carotene, lycopene, resveratrol, ferulic acid, etc. whereas nutraceuticals are the bioactive compounds found in fortified food, dietary supplements or herbal products. Furthermore, functional foods have naturally-occurring bioactive compounds in the food while nutraceuticals can come as pills, capsules or liquids.

### What is the Difference Between Functional Foods and ...

In fact, the term nutraceutical, as coined by Stephen DeFelice, M.D., founder of the Foundation for Innovation in Medicine in Cranford, N.J., covers the gamut—including dietary supplements, those fortified foods that are enriched with nutrients not natural to the food such as orange juice with added calcium, functional foods and medical foods. Thus, nutraceuticals are more correctly defined as parts of a food or a whole food that have a medical or health benefit, including the prevention ...
