About | Pat Welsh Organic and Southern California Gardening

Welsh first touches on the unique climate facets of Southern California; she addresses the issue of micro-climates within a climate zone and how this affects one's plans and growing techniques. Not just focusing on how one can prune and divide perennials, Welsh covers the five types of soil, soil additives, improving drainage on lots and includes several pages on manure and their varying applications.

Answer from Pat: I don't blame you for wanting to cover over the mess of dying dahlia foliage, but you are correct in thinking that it's best to wait until foliage dies down or turns yellow before cutting the stems back and digging up the roots. Cutting back too early will weaken the roots and flowers will gradually deteriorate.
