Keri Arthur, the New York Times bestselling author of the Riley Jenson Guardian series, takes readers to the werewolf reservation of Ripple Creek—where moon fever runs high and a savage murderer runs rampant. There's no turning back for Neva Grant. To find a killer, she must seduce the boldest male in the Sinclair pack. Her twin sister lies in a hospital bed, fighting for her life, the fourth and only surviving victim of a vicious attacker. The werewolf rangers suspect the Sinclair pack, and the only way Neva can infiltrate their close-knit ranks is to unleash the wildness within and offer herself to Duncan Sinclair. Duncan's appetite for women is legendary on the reservation. But when this new woman stirs his hunger, he finds his desire for her goes deeper than anything he's ever felt before. When he realizes that she's playing a game and he's taken the bait, he is determined to push her to the breaking point. As Duncan and Neva engage in a dangerous dance, they must somehow find a way to join forces—before a cornered killer bites back.

The subject of this book is politics and religion, the relationship between Constantine and Christianity. Something happened in the reign of the Emperor Constantine that transformed both politics and religion in Europe, and anyone who seeks to understand modern Christianity must analyze this transformation and its consequences. The reign of Constantine is remembered as the victory of Christianity over the Roman Empire; the subtitle of the book indicates a more ominous assessment: "the triumph of ideology." Through a careful analysis of the sources, Dr. Kee argues that Constantine was not in fact a Christian and that the sign in which he conquered was not the cross of Christ but a political symbol of his own making. However, that is only the beginning of the story. For Constantine, religion was part of an imperial strategy, and the second part of this book shows just what that strategy was. Here is the development which marks a transition to a further stage, the way in which by using Christianity for his own ends, Constantine transformed it into something completely different. Constantine, Dr. Kee argues, along with his biographer and panegyrist Eusebius, succeeded in replacing the norms of Christ and the early church with the norms of imperial ideology. Why it has been previously thought that Constantine was a Christian is not because what he believed was Christian, but because what he believed came to be called Christian. And that represents "the triumph of ideology."

YOUNG AFRICAN AMERICAN LAWYER JIM REED seemingly has it all. Recently named a junior partner in an Atlanta law firm, Jim is shocked when he stops at his usual gas station and realizes the price of fuel has skyrocketed overnight to fifty dollars a gallon. It is 2033, and the world as Jim knows it is suddenly spinning wildly out of control. Sudden hyperinflation shocks everyone. As panic sets in, the value of the dollar plummets and the resulting devastation causes the United States to splinter into several countries, all of which adopt democratic rules except the Federated States, the one in which Jim Reed and girlfriend Linda Alonzo live. They find themselves citizens of a country governed by a white-supremacist dictatorship. Jim Reed joins a group of African American insurgents and finds himself involved in dangerous, bold attacks on Federated States targets. The insurrection causes the Federated States government to intern or exile the entire Federated States African American population. Reed goes into exile and as he recruits like-minded people to join together with the intent to destroy the Federated States Supremacist government, he conceives a plan that may just become the world's greatest act of terrorism.

"You're going to sell what? Empty Boxes?" Back in 1978, Kip Tindell (Chairman & CEO of The Container Store) and his partners had the vision that people were eager to find solutions to save both space and time - and they were definitely onto something. A new category of the retailing industry was born - storage and organization. Today, with stores nationwide and with more than 5,000 loyal employees, the company couldn't be stronger. Over the years, The Container Store has been lauded for its commitment to its employees and focus on its original concept and inventory mix as the formula for its success. But for Tindell, the goal never has been growth for growth's sake. Rather, it is to adhere to the company's values-based business philosophies, which center on an employee-first culture, superior customer service and strict merchandising. The Container Store has been named on Fortune magazine's "100 Best Companies To Work For" list for 15 consecutive years. Even better, The Container Store has millions of loyal customers. In *Uncontainable*, Tindell reveals his approach for building a business where everyone associated with it thrives through embodying the tenets of Conscious Capitalism. Tindell's seven Foundation Principles are the roadmap that drives everyone at The Container Store to achieve the goals of the company. *Uncontainable* shows how other businesses can adapt this approach toward what Tindell calls the most profitable, sustainable and fun way of doing business. Tindell is that rare CEO who fully embraces the "Golden Rule" of business - where all stakeholders - employees, customers, vendors, shareholder, the community - are successful through a harmonic balance of win-wins.

"For all who want to make sense of fundamentalism as a long-term consequence of the modern world, *Pious Passion* will be required reading. It is also enjoyable, abounding in cogent arguments set forth in lucid prose and supported by compelling examples."—Bruce B. Lawrence, author of *Defenders of God* "Riesebrodt's trenchant analysis brings the comparative study of religious activism to a new level of sophistication, exploring not only the ideological development of fundamentalist movements but also the changes in social structure that produced them. *Pious Passion* is a signal event in the modern social sciences, for it helps to establish a new academic field—the comparative study of fundamentalism."—Mark Juergensmeyer, author of *The New Cold War?*

These proceedings are the third volume to be published in a series generated by the annual military history symposium sponsored by the US Army Training and Doctrine Command (TRADOC). Each year, these conferences bring together both military and civilian historians, as well as formal and informal students of military history, literally from around the world, for the purposes of presenting ideas and points of view on current military issues from a historical perspective. This year's symposium, hosted by the Combat Studies Institute, was held 2-4 August 2005 at Fort Leavenworth, Kansas. The 2005 symposium's theme was An Army at War: Change in the Midst of Conflict. As this title indicates, presentations at this event focused on how an Army changes while concurrently fighting a war. Changing an Army in peacetime is difficult enough. Transformation can include changes to the personnel system, the turning in old and the fielding of new equipment, new training requirements, and at times, learning an entirely new way of viewing the enemy and the battle space in which operations will occur. Practical and cultural changes in an Army always cause tremendous turbulence and angst, both inside and outside of the Army. The United States Army and the nation are facing these challenges today, and they must make these changes not in a peacetime environment, but while fighting the Global War on Terrorism (GWOT). The panelists presented a series of topics addressing the current transformation challenge that ranged from maneuver warfare, to asymmetrical operations, to insurgencies, to logistics, to unit manning, to doctrine and many others. This third collection of proceedings contains the papers and presentations of participating panelists. It also includes transcriptions of the question and answer periods following the panelists' presentations. These annual symposiums are proving to be a key annual event for those students and masters of military history who believe that the past has something useful to provide in the analysis of current military problems.
