Primary Total Ankle Replacement An Issue of Cli ...

The surgeon's learning curve in replacement of the ankle joint is significantly long and flat. Indications for Total Ankle Arthroplasty . 1. Primary degenerative joint disease (DJD) of the ankle . 2. Posttraumatic DJD of the ankle . 3. Severe DJD of the ankle secondary to inflammatory naturopathies, e.g., rheumatoid arthritis . 4

Primary Ankle Replacement | Musculoskeletal Key

Introduction. Bringing together the most up-to-date information on all aspects of primary and revision total ankle replacement (TAR), this definitive text focuses on TAR procedures and prostheses available for use in North America with additional "lessons learned" from the international community. The text is evidence-based, includes bullet points for quick reference, and is heavy on step-by-step photographs during surgery.

Primary and Revision Total Ankle Replacement | SpringerLink

Abstract. Background: Total ankle replacement (TAR) represents an alternative to fusion for the treatment of end-stage ankle osteoarthritis. The aim of the present study was to retrospectively assess the frequency of infections between TARs with anterior and lateral transfibular approach at 12-months follow-up.

Infections in primary total ankle replacement: Anterior ...

Talar component subsidence is considered the primary mechanism of failure of some total ankle system designs . Less often, the tibial component can also collapse into the tibia, as has been noted for the Agility ankle replacement together with failure of syndesmosis arthrodesis . Other predisposing factors include osteopenia, obesity, or overload from excessive activity, which lead to subsidence of either component.

Primary and Revision Total Ankle Replacement Using Custom ...

Primary total ankle replacement (TAR) arose out of the successes of primary hip and knee replacements in the 1970s. Initially, the indications and contraindications for TAR were vague and limited. As both the surgical techniques and prosthesis components improved, these considerations were refined and broadened.

Primary Total Ankle Replacement, An Issue of Clinics in ...

Total ankle replacement is indicated for primary, post-traumatic and inflammatory arthropathies as an alternative procedure to tibiotalar arthrodesis.

Current And Emerging Insights On Total Ankle Replacement ...

We retrospectively analyzed 158 consecutive primary total ankle arthroplasty procedures, performed by a single surgeon between January 2005 and December 2011, in 158 patients with symptomatic ankle end-stage arthritis using the HINTEGRA prosthesis (Integra, Plainsboro, NJ, USA).

Neurologic injuries after primary total ankle arthroplasty ...

Total ankle replacement (also known as "total ankle arthroplasty") is a surgical procedure for patients with arthritis of the ankle. Arthritis causes wear and tear of the ankle joint, leading to bone-on-bone contact with limited motion and activity. TAR surgery can relieve pain while maintaining motion in the ankle joint and is a viable alternative to an ankle fusion (arthrodesis) which can relieve pain but completely eliminates motion in the joint.
