The U.S. Army Corps of Engineers says more than half of the nation's 91,458 dams are privately owned, some by power utilities and large corporations and others by private land owners. Boyce's...

Michigan Flood Puts Privately Owned Dams in Harsh ...

Dam Safety Dams play a vital role in the nation's overall infrastructure. They contribute to the economic development of the United States and to the social welfare of the American public. Dam infrastructure can be affected by natural hazards, man-made threats, as well as an imbalance between resources invested and a dam's age.
