Storytime with Ranger Rick! Good stories do more than entertain--they teach as well. From its first issue back in 1967, Ranger Rick magazine has distinguished itself by publishing hundreds of stories that capture children's imaginations--that teach them about wildlife, about ecology, about all of nature. This volume collects some of the best of those stories about a rich variety of wild animals, from unfamiliar creatures in distant lands to familiar ones in our own back yards.

What happens when 8-year-old Kate, on safari in South Africa with her family, meets Michelle, a professional wildlife guide? The two new friends -- one from America, the other from South Africa -- turn their adventures into a lively book in which they share facts and secrets about the African bushveld. At the same time, they show how young children everywhere can become advocates for wild animals. *Let's Go on Safari!* combines daily entries in Kate's African safari journal with insights from Michelle about the bushveld and wildlife. Kate discovers the wonders of wildlife contrasted with the threats that animals face. She is inspired to make a difference. The book provides examples of small-scale, achievable animal advocacy projects that kids can initiate in their own communities and schools. *Let's Go on Safari!* has been endorsed by significant conservation bodies, including the Jane Goodall Institute, the Sheldrick Wildlife Trust and Global Wildlife Conservation, an organisation working around the world to save endangered animals. Sales points: An entertaining account of what happens on a bushveld safari, told by a young nature lover; packed with interesting facts and full-colour photographs, and presented in an accessible journal style; shows young readers that they can play a positive role in saving wildlife; endorsed by global conservation bodies: the Jane Goodall Institute, the Sheldrick Wildlife Trust and Global Wildlife Conservation.

Real-life 7-year-old Sophia Spencer was bullied for loving bugs until hundreds of women scientists rallied around her. Now Sophie tells her inspiring story in this picture book that celebrates women in science, bugs of all kinds, and the importance of staying true to yourself. Makes a perfect gift for nature lovers on Earth Day and every day! Sophia Spencer has loved bugs ever since a butterfly landed on her shoulder--and wouldn't leave!--at a butterfly conservancy when she was only two-and-a-half years old. In preschool and kindergarten, Sophia was thrilled to share what she knew about grasshoppers (her very favorite insects), as well as ants and fireflies... but by first grade, not everyone shared her enthusiasm. Some students bullied her, and Sophia stopped talking about bugs altogether. When Sophia's mother wrote to an entomological society looking for a bug scientist to be a pen pal for her daughter, she and Sophie were overwhelmed by the enthusiastic response--letters, photos, and videos came flooding in. Using the hashtag BugsR4Girls, scientists tweeted hundreds of times to tell Sophia to keep up her interest in bugs--and it worked! Sophia has since appeared on Good Morning America, The Today Show, and NPR, and she continues to share her love of bugs with others.
