Transurfing Reality was one of the top non-fiction bestsellers in the world in 2005 and 2006. Unknown till now in the West, the series has sold over 1,300,000 copies in Russia in three years. This translation (by Natasha Micharina) describes a new way of looking at reality, indeed of creating it. It provides a scientific explanation of the laws that help you do this, building up a scientific model, speaking in detail about particular rules to follow and giving important how-to tips, illustrated with examples. The author introduces a system of specific terms, notions, and metaphors, which together make a truly convincing, thought-provoking theory of creating your own life. "You are ruled by circumstances and it will always be like that until you learn how to manage your reality," says the author. Bringing together the cutting edge of modern science and philosophical teaching, the book's style is popular-scientific, metaphorical and conversational. Books in the series: Reality Transurfing 1: The Space of Variations; Reality Transurfing 2: A Rustle of Morning Stars; Reality Transurfing 3: Forward to the Past; Reality Transurfing 4: Ruling Reality; Reality Transurfing 5: Apples Fall to the Sky

Collects quotations by Einstein and arranges them thematically on such subjects as death, education, family, life, pacifism, religion, wealth, and wisdom

Meet the new world sensation. It's Tufti. Why is it that nothing seems to work out the way you want it to, despite the fact that you act according to your own free will? You might think that the reason why nothing is working out the way you want, is because that's just how life is. But the real reason things don't work out the way you want them to, is because you aren't acting according to your own free will - you are being directed by a script. Another reason things don't work out the way people want them to, is because they don't know how to take the right action to shape events the way they want. Rather than composing the reality of the upcoming film roll, they tend to battle with the reality they face in the current frame. Reality exists only in the here and now, and what is real is real only to the extent that it has taken place in the material world. You cannot change what has already happened. Yet when you fight with your current reality, that is exactly what you are doing, because everything that surrounds you consists of something that has already happened. If you want to change the script, you have to wake up and come alive inside the movie. Translation from the Russian language by Joanna Dobson

Everyone's watching Tufti. Everyone's reading Tufti. Everyone's talking about Tufti. Some shout, "We can't stand Tufti!" Others shout, "We want Tufti!" So who is she Priestess Itfut, who goes by the second name Tufti? Tufti is not a made up character. She used to exist and in some sense she still does. This book describes the amazing adventures of the priestess and her friends in metareality. What happens there is not entirely ? ction.Truth be told, it is not ? ction at all. The reader will have to decide for themselves how much of it they wish to believe. This book does not promise a magic wand and you will not absorb the superpowers of its fabulous characters by reading it, but you can take Tufti's techniques away with you, as many others have done already.

Describes a fresh way of looking at reality, indeed of creating it. This volume explains why desires aren't always fulfilled, and why dreams don't come true. It describes how you can do this. It helps to discover how to find your own Path. It answers the questions: what is choice, and how do you choose.

Florence Scovel Shinn was a woman ahead of her time. To many, she is considered to be among the likes of James Allen, the author of "As a Man Thinketh", Wallace D. Wattles, the author of "The Science of Getting Rich" and Napoleon Hill who wrote the classic "Think and Grow Rich".

Transurfing is simple, yet powerful Reality Management Technique, developed by the Russian quantum physics researcher Vadim Zeland. Zeland's main goal is to present a set of techniques (which he calls Transurfing of Realities) for the attainment of practical goals. These techniques are of mental and metaphysical nature. Zeeland supports these techniques by presenting a model of the universe that combines the elements of quantum physics with the idea of parallel worlds. As Zeland states, the use of the techniques is not dependant on the acceptance of his theoretical model. Some Transurfing techniques are very simple and practical. Zeland says: " You can not hide from the inevitable reality. Your life is determined by curcumstances and your place in society. Reality develops for the most part regardless of your own will. For every "I want" there is its own "You can't." In response to "Give it to me" you hear "You can't get it." There is little you can you do in such circumstances.... As a rule, human beings

behave unambiguously. In their attempts to get what they want, they try to influence this world straight on, by the principle "Give it back to me." Direct impact, based on direct contact, is one of the ways of controlling something, but it is certainly not the most effective method of controlling reality. Transurfing is ..."
