Reload Guide 9mm Wsntech

Reload Guide 9mm Wsntech Reloading the 9mm is not a difficult proposition; it's a relatively straightforward design. It is a straight-walled, slightly tapered case, which headspaces off of the case mouth. Therefore, you'll want to be very careful about trimming the brass to proper length and leaving a good, square case mouth.

Loving Your Luger: Reloading the 9mm Luger | Gun Digest

Federal Syntech ammunition is loaded with a polymer-coated lead bullet. Available in 9mm Luger,.40 S&W and .45 Auto, the bullets feature an eye-catching red coating. The polymer coating is said to prevent metal-on-metal contact between the lead bullet and the bore, which extends barrel life and eliminates copper and lead fouling.

### Reloading Data - Federal Premium Ammunition

It depends a lot on what you shoot and how much you shoot it. 9mm can be reloaded, with picked up brass, for about 10-14 cents per round. I buy new brass cased 9mm for around 17-18 cents a round. That means at most I'll save 8 cents a round, or \$80 per 1,000 rounds.

Description. Federal's Syntech 9mm 115 grain bullets are the same projectiles loaded in their American Eagle Syntech ammunition, and they're also available for handloaders. Syntech bullets feature Federal's proprietary TSJ (total synthetic jacket) polymer jacket that prevents copper/lead fouling, while it decreases heat and friction in the bore.
