

### Serial Eeprom Cross Reference Guide

If you ally dependence such a referred **serial eeprom cross reference guide** book that will offer you worth, acquire the enormously best seller from us currently from several preferred authors. If you desire to comical books, lots of novels, tale, jokes, and more fictions collections are with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every books collections serial eeprom cross reference guide that we will enormously offer. It is not something like the costs. It's about what you dependence currently. This serial eeprom cross reference guide, as one of the most vigorous sellers here will unquestionably be in the midst of the best options to review.

Acces PDF Serial Eeprom Cross Reference Guide The Microchip Technology Inc. 24LC04B is a 4Kb I2C™ compatible Serial EEPROM. The device is organized as two blocks of 256 x 8-bit memory with a 2-wire serial interface. Low-voltage design permits operation down to 2.5V, with standby and active currents of only 1 µA and 1 mA, respectively.

Serial Eeprom Cross Reference Guide

Summary. The Microchip Technology Inc. 24AA128/24LC128/ 24FC128 (24XX128\*) is a 16K x 8 (128 Kbit) Serial Electrically Erasable PROM (EEPROM), capable of operation across a broad voltage range (1.7V to 5.5V). It has been developed for advanced, low-power applications such as personal communications or data acquisition.

24LC128 - Memory

The above Cross Reference Search is designed to be used as a guide for basic product information and for reference only. It is not intended to provide comprehensive product specifications and/or feature comparisons.

Macronix - Cross Reference Search

The Microchip Technology Inc. 25AA640/25LC640 (25XX640\*) is a 64 Kbit Serial Electrically Erasable PROM [EEPROM]. The memory is accessed via a simple Serial Peripheral Interface (SPI) compatible serial bus. The bus signals required are a clock input (SCK) plus separate data in (SI) and data out (SO) lines. Access to the device is controlled through a Chip Select (CS) input.

25C640 - Memory

EPROM Cross Reference Guide. 1996 Microchip Technology Inc. DS11178D-page 1. Microchip provides a wide selection of EPROM devices, both from a density and a packaging stand- point. If you are interested in a part that is not listed in this book, please refer to the Microchip data book, or contact your local distributor or sales representative for assistance.

EPROM Cross Reference Guide

General Guidelines: 1. The "93" designator in the EEPROM part numbers specifies a 3-wire serial interface. 2. The "06" designator in the EEPROM part numbers specifies a 256-bit device. 3. The "46" designator in the EEPROM part numbers specifies a 1K device. 4.
