STRENGTH AND CONDITIONING FOR GYMNASTICS
A strong, stable core is one of the absolute "must haves" in gymnastics. One reason is performance-based, as different events and the skills within those events require massive amounts of core strength. Creating "stiffness" in body shapes to absorb force allows good punching, lines, and handstand fundamentals. It is also integrated during shape changes as seen with basic tap swings and tumbling.

Boost Gymnastics Core Strength With These 3 "Must Do" Things
This style of training is also known as Gymnastics Inspired Strength Training, or even Gymnastics Strength Training (GST). We built our Fundamentals Program to set you up physically for classes. This style of training is VERY effective – but it requires a learning phase. In Fundamentals we teach stuff like this: Wrist, shoulder, hip and ankle mobility; Straight arm strength; Bent arm strength; Core and spine strength
