For nearly 25 years, Greg Kot of the Chicago Tribune has been reviewing all parts of the popular music world: from indie up-and-comers and underground hip-hop artists to arena-filling rock-and-rollers and celebrity pop superstars. Turn It Up: A Guided Tour Through the Worlds of Pop, Rock, Rap and More is the first-ever collection of Kot's Tribune articles, covering the years of 2000–2013. Beyond informative and entertaining features, concert recaps, and album reviews, Turn It Up covers major issues associated with music and the music industry since the turn of the millennium. Kot delves deeply into issues that matter regarding the essential acts of the 21st century, the business of music as a whole, and the Chicago music scene in particular. With chapters grouped by genre—pop, rock, and rap—and a catch-all final chapter containing insights on digital music, record labels, and the evolving “music biz,” Turn It Up is an easy-to-follow guide to where the music world has come from and where it is going. Kot’s deep knowledge of the subject matter and unpretentious writing will make this a fascinating read for his longtime local fans, as well as music lovers far and wide.

If classical singers and vocal pedagogues are to be prepared adequately for performance, teaching and co-operation in inter-professional relations, then an holistic education entailing multi-disciplinary study is essential. In this important new book, Karen Sell examines the disciplines pertinent to vocal pedagogy, tracing the lineage of views from the ancient world to the present day. In the process important diverse roots are exposed, yielding differing and even conflicting tonal ideals which have a bearing on the consideration of different singing methods and the interpretation of songs and arias. Ethics and psychology are identified as central to the entire pedagogical process along with the scientific basis of singing: encompassing acoustics, anatomy and physiology, with special reference to the bearing of the latter two upon vocal health and hygiene. A detailed consideration of singing technique is the centrepiece of the book, and an understanding of good technique and scientific awareness is shown to be fundamental to good vocal pedagogical practice. This leads to a discussion on performance and aesthetics, contributing to the education of the fully equipped singer. No study to date has demonstrated the inter-relationships between all these individual disciplines and the ways in which they influence singing pedagogy. Sells holistic, multi-disciplinary approach will be of particular benefit to singers and voice teachers, and will also appeal to music educationalists and professionals in cognate disciplines.
