Teaching for Home Learning: Primary Science - FutureLearn

Primary Science (PS) is a themed journal for all those involved in primary science education for children aged 3-12, including primary teachers, primary science co-ordinators, primary schools, local authority advisers and inspectors and science teacher trainers and trainees. It is a forum for sharing information and ideas and includes articles about teaching, learning and assessing science.

Primary Science | www.ase.org.uk

The content of science teaching and learning is set out in the 2014 National Curriculum for primary schools in England. Within this, certain topics and areas are repeated across year groups, meaning that children may revisit a particular topic in each year of primary school but with increasing difficulty and with a different focus each time.

Science at primary school | Oxford Owl

Primary school science teaching often involves sparking students' imagination through practical activities. As schools close due to the coronavirus pandemic, primary science teachers must learn innovative new ways of teaching young students science using online and offline learning. On this course, you'll consider the new learning environment of your pupils, the role of parents in your teaching, and discover new science activities your pupils can do from home.

Teaching for home learning: primary science | STEM

This booklet aims to provide a starting point for reflection and discussion on issues in primary science education. It has been produced to celebrate the 25th anniversary of the original Active Teaching and Learning Project (ATLAS) which drew upon the expertise, experience and advice of teachers and educators from around the country in 1986.

An A-Z of Primary Science: Active Teaching and Learning ...

Many primary teachers haven't received extra training in teaching science, leading to low confidence in teaching, and less effective science lessons. Luckily, you don't have to be a lab coat wearing, test-tube twirling scientist to teach it.
